Leadership Begins Here
Message from the President

Leadership Begins Here
Hau` Mitakiyapi ka Mikodapi
(Hello my relatives and friends):

On behalf of the Board of Directors, administration, and staff, I welcome you to the United Tribes Technical College (UTTC) campus! UTTC is celebrating 50 years of workforce development and educational services to the United Tribes of North Dakota (UTND) and Indian Country! UTTC is a nonprofit corporation owned and governed by the five Indian tribes located wholly or in part within the state of North Dakota. UTTC has continued to expand services through the years by offering quality workforce training, certificate, associate of applied science, or baccalaureate, programs of study to native and non-native students since being established in 1969.

The programs of studies are concentrated and closely aligned with tribal workforce needs for North Dakota and the Great Plains Region of the United States. UTTC continues to collaborate with the North Dakota Association of Tribal Colleges (NDATC) and North Dakota University System (NDUS) to enrich a seamless transfer between tribal and state colleges through the General Education Requirement Transfer Agreement. UTTC is fully accredited through the Higher Learning Commission until 2021 for all programs of study.

UTTC is committed to supporting you in completion of the education program of your choice by providing a challenging learning environment based in academia and culture. As a cultural and leadership co-curricular activity, all students are required to attend the Tribal Leaders Summit and Tradeshow. We believe the exposure to native leadership and real life best practices on what is working in Indian Country will assist our students in recognizing the importance of education in their personal lives, families, and communities.

Recent updates to campus this summer were the combining of the Art Gallery and Bookstore, relocating the Library to the lower level of the Jack Barden Center, moving Cozy Creek to James Henry Gymnasium, and a number of new parking lots to enhance safety and handicap accessibility.

We are here to support you as a student regardless of your academic or training interests and are committed to providing a quality education experience. We encourage you to participate in the activities offered through the Student Government Association and other departments across campus and hope you will share your talents with the campus community. We are excited and honored to have you here, and we wish you tremendous academic success and a great future!

Hecetu (so be it)

Leander “Russ” McDonald, PhD

Board of Directors

United Tribes Technical College is a nonprofit corporation owned and governed by the five Indian tribes located wholly or in part within the state of North Dakota. UTTC's governing body is a ten-member board of directors made up of the tribal chairperson and one representative from the tribal councils of each of the five reservations.

Three Affiliated Tribes

Chairman
Mark Fox
Councilman
Mervin Packineau

Spirit Lake Tribe

Chairwoman
Peggy Cavanaugh
Councilman
Duane Jackson Sr.

Turtle Mountain Band of Chippewa Indians

Chairman
Jamie Azure
Councilman
Jim Baker

Sisseton-Wahpeton Sioux Tribe

Chairman
Donovan White
Councilman
Louie Johnson

Standing Rock Sioux Tribe

Chairman
Mike Faith
Councilman
Charles Walker

Mission and Vision

Mission

United Tribes Technical College provides quality post-secondary education and training to enhance knowledge, diversity, and leadership for all indigenous nations.

Vision

Striving to build cultural, educated, and healthy leaders who empower their communities.

Accreditation

Accreditation is a voluntary process of external review that evaluates programs, colleges and universities to ensure they provide high-quality education and services and continuously seek to improve. This process provides assurance to the public that United Tribes Technical College (UTTC) meets, and will continue to meet, clearly communicated criteria and regulations. Accreditation also ensures that faculty and students are eligible for federal grants and other funding. UTTC was granted candidacy status for accreditation by the North Central Association of Colleges and Schools in 1978. In 1982, UTTC was granted full accreditation status and has maintained continuous accreditation status since that time. The most recent comprehensive evaluation was April 2017. The next comprehensive evaluation is scheduled for 2020-2021.

UTTC also has programs that are individually accredited by the following discipline-specific accrediting bodies:

• National Automotive Technicians Education Foundation (NAETF)
• Association of Nutrition and Food Services Professionals
• North Dakota Education Standards and Practices Board (ND ESPB)
Leadership Begins Here

United Tribes Technical College
Institutional Learner Outcomes

Graduates of UTTC will...

1. Exhibit effective oral and written communication. (Communication)
   a. Organize various types of communication
   b. Articulate content knowledge
   c. Demonstrate appropriate delivery (i.e. body language, tone, voice)
   d. Apply mechanics of writing (standard grammar, punctuation, spelling)

2. Analyze information from diverse sources. (Critical Thinking)
   a. Identify issues
   b. Evaluate sources
   c. Apply solutions

3. Develop solutions to mathematical and scientific problems (Quantitative & Scientific Reasoning)
   a. Interpret data from a variety of sources
   b. Demonstrate hypothesis-based problem solving
   c. Estimate answers for reasonableness
   d. Communicate quantitative information

4. Demonstrate skills necessary for living and working in a global society. (Personal & Social Responsibility)
   a. Demonstrate collaboration skills
   b. Identify ethical norms for conduct
   c. Exhibit knowledge of diverse cultures, identities and societies
   d. Model professional behavior (e.g. attire, timeliness, reliability, initiative)

Family Educational Rights and Privacy ACT (FERPA)

Under the terms of FERPA, United Tribes Technical College has established the following as directory information and may be released to those requesting it unless the student specifically requests otherwise on the form provided or by submitting written notification to the office of the registrar:

1. Student Name
2. Local Address/Phone
3. Permanent Address/Phone
4. E-mail Address
5. Date and Place of Birth
6. Hometown
7. Degrees and Awards Received & Dates
8. Dates of Attendance (Current and Past)
9. Full or Part-time Enrollment Status
10. Participation in Officially Recognized Activities
11. Participation in Officially Recognized Sports
12. Weight/Height of Member of Athletic Teams
13. Most Recently Attended Education Institute
14. Major Field of Study
15. Academic Level
16. Residency Status
17. Photographs

With the exception of security reports, all other information may not be released without written consent of the student. Grades, social security numbers, ethnic background and student schedules may not be released to anyone other than the student — and never over the phone.

Please note: Students are given the opportunity to restrict directory information each year. If the student restricts the release of directory information, a notation of “n” is placed on the directory information and no information can be released on that student without further written permission from the student. Appropriate faculty/staff response: “There is no information available from that person.”

Any questions concerning FERPA may be referred to the Office of the Registrar.

History of United Tribes Technical College

Enter United Tribes Technical College and you’re on Indian land. The 230-acre campus along Bismarck’s University Drive is a place of historic significance. It is owned and governed by the tribal nations of North Dakota to serve education.

American Indian students are joined by students of all racial and ethnic backgrounds, who are welcomed to this culturally diverse setting. The 100 year-old buildings are a clue to a past here to uncover.

Tribal Homeland
UTTC is the site of the former military post Fort Lincoln. But long before the first brick buildings took shape in 1903, this was open prairie. Wooded ravines nearby and fertile bottomlands were the life-sustaining homelands of the Mandan, Hidatsa and Arikara tribes.

In 1863 – after the Minnesota-Dakota Conflict – Lakota and Dakota People avoided an almost certain massacre at this site by outmaneuvering a vengeful militia from Minnesota.

Hunting grounds, battle sites, villages and sacred locations abound near the confluence of Apple Creek and the Missouri River.

Military Post
Unmistakable on the campus today are Fort Lincoln’s parade grounds, brick buildings and other facilities that served military purposes on and off through the first half of the 20th Century. Periodically troops were garrisoned, assembled, trained and mobilized here. The post was a central location for assembling North Dakota National Guard troops departing for Europe during World War One.

Over the years the facilities also served government and civic purposes as Bismarck locals lobbied to maintain a presence that would continue the flow of government dollars into their community.

Internment Camp
During World War Two, Fort Lincoln was tapped for another purpose. In 1941 a portion was cordoned off with 10-foot-high cyclone fences topped with barbed wire and fortified by guard towers. The post became an enemy alien internment camp of the U.S. Justice Dept. Detained and confined were men primarily of German and Japanese ancestry – some of whom were U.S. citizens. By 1946, upwards of 4,000 internees passed through what has become known as “Snow Country Prison,” connecting this site to the national disgrace of unjust treatment of groups and individuals targeted race and ethnicity.

Post-War Era
After the war Fort Lincoln continued in government service. It became the U. S. Army Corps of Engineers headquarters for planning of the Garrison Dam, a public works project that flooded tribal land, devastating citizens of the Mandan/Hidatsa/Arikara Nation.

In 1964 the fort was declared surplus property and was later remodeled and used as a Job Corps training center and later by the Peace Corps.

College Bound
The start of United Tribes Technical College is rooted in the vision and activism of tribal leaders in the 1960s. Faced with threats to their tribal sovereignty and the need for training and jobs development, the tribes of North Dakota incorporated in 1968 and obtained the fort for education and training. Classes began in September 1969. Thus, it became the second tribal college in the nation and one of the founding institutions of the nationwide American Indian Higher Education Consortium.

Because several tribes were involved, UTTC holds the distinction of being the first intertribally controlled and operated postsecondary vocational school in the country. The governing tribes are located wholly or in part in North Dakota: Mandan/ Hidatsa/Arikara Nation, Spirit Lake Tribe, Sisseton-Wahpeton Oyate, Standing Rock Sioux Tribe and Turtle Mountain Band of Chippewa Indians.

Setting the Pace
United Tribes was developed as a supportive campus-community, where students could maintain their culture and build on their experience as tribal people, as they acquire an education leading to employment and life-long opportunities. A hallmark has been the ability to identify and respond to the changing needs for jobs training and education. In 1982 the college attained full membership accreditation with the Higher Learning Commission of the North Central Association of Colleges and Schools, maintaining its good standing ever since. The college’s first associate degrees were offered in 1987. Accreditation followed for all of the college’s associate level programs in 1993. Tribal College Land Grant status was conferred in 1994. UTTC was the first tribal college in the nation to receive accreditation to offer associate degrees online.

Now, bachelor’s degree programs round out the offerings that make UTTC one of the leading tribal colleges in the nation.

Transformation
Today, the UTTC campus is a learning environment with modern educational buildings and equipment. The historic setting is transformed, serving students from tribes across the country and non-Native students.

Thousands have been successful, demonstrating that educating students at United Tribes Technical College is the highest and best use of a one-time military fort in the tribal homeland.

- UTTC Land Grant
- Copyright Policy
General Information

This catalog is published by United Tribes Technical College to provide information concerning the college. Any part of this publication is subject to change and should not be construed as a binding obligation with United Tribes Technical College. For updated information about UTTC go to www.uttc.edu/academics.

Accessibility

The major student facilities, dorms, and instructional buildings in use at UTTC are accessible to the physically challenged. In those instances in which services or instruction are given in buildings that are not accessible, accommodations will be made to assure that the needs of individual students are met.

Chapel Services

UTTC has a nondenominational chapel on campus. Sunday church services include Episcopal, All Nation’s Christian Fellowship, and Catholic mass. Prayer services, fellowship, and bible studies are held on weekday evenings.

Drug and Alcohol Policies

UTTC enforces a no alcohol or drug policy on campus. Students, faculty, staff and visitors will not engage in the unlawful manufacture, distribution, dispensation, possession, or use of controlled substances during their term at UTTC. Additional information regarding the UTTC drug and alcohol policy is located in the Student Code of Conduct found in the Student Handbook.

Tobacco Free Campus Policy

Commercial tobacco is defined to include any product that contains tobacco, is manufactured from tobacco, or contains nicotine. This excludes any FDA approved nicotine replacement therapy. “Smoking” means inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, or pipe, or any other lighted or heated tobacco or plant product intended for inhalation, in any manner or in any form. Smoking also includes the use of an e-cigarette which creates a vapor, in any manner or any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking.

For information about the complete policy, refer to the UTTC website.

Equal Opportunity/ Affirmative Action

United Tribes Technical College is an equal opportunity, affirmative action employer that does not discriminate on the basis of race, color, national origin, sex, religious preference, or membership or non-membership, except as allowed by the Indian preference provision of the Civil Rights ACT of 1964, as amended.

Further, UTTC does not discriminate in its admissions, access to and conduct of educational programs and activities. Discrimination is prohibited on the basis of race, sex, color, national origin, religion, age, handicap, or marital and parental status. For more information regarding non-discrimination policies, contact: UTTC Director of Human Resources, 3315 University Drive, Bismarck, ND 58504, 701-255-3285.

Disclaimer

Terms, conditions, fees, course offerings, admissions, graduation requirements, Academic Calendar and regulations affecting the student body set forth in the catalog are in accordance with information available at the time of publication. United Tribes Technical College (UTTC) reserves the right to change these conditions when necessary.

If UTTC decides to terminate a degree program, students enrolled in that program will be provided written notice. Students will be afforded a set time for program completion, determined through a “teach out” plan established by the College and the academic department that offered the degree program.
Facilities Management

Maintenance, custodial, and transportation are combined components of the Facilities Department. Facilitates provides maintenance and custodial services throughout the entire campus. If there is a problem in the dorm or housing that needs attention contact the Housing Director or assistant and a work order will be submitted. After hours, emergency on-call services are available by contacting the UTTC Security Office at (701) 221-1700.

The Transportation Department makes scheduled trips to the supermarkets and malls. Children attending high school in Bismarck are transported daily.

Capital Area Transit (CAT) bus services run Monday through Saturday and stop at nine different scheduled times between 6:30 am to 6:00 pm. The UTTC bus stops are located at the front gate on University Drive and the Wellness Center on Campus. Middle school and high school students will be transported by Bismarck Public School busing services, after completing necessary paperwork with the Bismarck school system.

Theodore Jamerson Elementary School (TJES)

UTTC contracts with the Bureau of Indian Affairs, Office of Indian Education Programs, to operate the elementary school. Theodore Jamerson Elementary School (TJES) is fully accredited with commendations by the North Dakota Department of Public Instruction and exceeds the educational standards set by the Office of Indian Programs. TJES is also accredited by North Central Association of Schools. In addition to comprehensive educational services, TJES offers a variety of social, cultural, and athletic opportunities.
UTTC Land Grant

UTTC Land Grant programs work with the U.S. Department of Agriculture (USDA) to promote wellness and provide nutrition education both at the college level and for the greater community. The mission of the UTTC Land Grant programs is to improve the health and well-being of all citizens through stewardship of the land and culture, community building and building life skills for individuals and families.

Specific UTTC projects include nutrition education, including weight management and diabetes prevention, wellness circle and survey, food safety projects, youth fitness and nutrition and ecological awareness, traditional plant research, fitness and worksite wellness promotion, and money management training. Endowment funds support recruitment, faculty development and student financial assistance in vocations focusing on Land Grant educational areas.

UTTC Land Grant Extension

Extension educators offer hands-on workshops and classes in food, nutrition, gardening, money management and lifeskills. Opportunities for children include: planting their own raised garden bed, sampling and learning how to cook homemade vegetables. Adults participate in gardening projects and cooking classes, as well as having a family garden plot or raised bed for personal use. Through the promotion of healthy lifestyles; classes that explore healthy eating habits, food safety procedures, and good money management are offered.

To learn more about the Land Grant Extension programs, visit Land Grant personnel in the Skill Center. See all the resources available at http://landgrant.uttc.edu.

UTTC is a 1994 Land Grant College receiving support from the USDA National Institute of Food and Agriculture. The mission is to improve the quality of life through culturally appropriate and scientifically based education that will strengthen Tribal communities, sustain natural resources, and promote healthy lifestyles for citizens of Tribal nations.

Workforce Innovation & Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act (WIOA) is a “Native American Program” as stated in Section 166 of the Workforce Innovation and Opportunity Act and receives grant funds directly from the Department of Labor (DOL). The Workforce Innovation and Opportunity Act program is under the authority of the Office of Workforce Investment, Division of Adult Services and administered through the Division of Indian and Native American Programs (DINAP).

The overall service strategy of the WIOA Section 166 program is to increase the labor participation rate among Indian and Native American (INA) job seekers by providing career and workforce-training activities necessary to enter, reenter, or retain unsubsidized employment leading to self-sufficiency.

Workforce Innovation and Opportunity Act (WIOA)

United Tribes Technical College
3315 University Dr-Bldg. 1A
Bismarck, ND 58504
Direct Line: (701) 221-1732/1729
Fax: (701) 530-0635

Jack Barden Center

The Jack Barden Student Life & Technology Center is a facility primarily for recreation, social, cultural, and educational activities. Activities will be held during regular hours (8:00 a.m. to 5:00 p.m.) and on evenings and weekends, as scheduled and announced. The center includes the UTTC Library a computer lab, and meeting rooms. Other computer labs are located in the Science and Technology Center, the UTTC Library and the Skills Center.
Art Gallery & Bookstore

The college bookstore is open during regular business hours Monday through Friday to all students, staff, and visitors.

The college Art Gallery & Bookstore sells textbooks, supplies, book bags, t-shirts, sweatshirts, jackets, mugs and cards. T-shirts and sweatshirts are available in sizes infant to adult 3X. You can also purchase these items on the UTTC Online Store!

Students must present a copy of their current course schedule when purchasing textbooks. The course schedule includes the course codes and numbers, which are specifically assigned to each class.

The Art Gallery & Bookstore will sell used books when available. If textbooks are returned, due to an error at the time of purchase, within one week and in new condition, the Bookstore personnel will accept the textbook(s) and credit the student's account for the cost of the textbook(s). Defective books will be replaced at no charge.

The Art Gallery & Bookstore is located in building 10 on Sisseton Street.

Information Technology Department

The United Tribes Technical College Information Technology (IT) department is on hand year-round to provide technology services and infrastructure support to UTTC faculty, staff, and students. With services such as networking, desktop applications, web services, telephone and more, the IT department strives to provide computer and communications services to the campus community that are up-to-date, stable, and secure.

The IT office is located in the Skills Center.

Students who need assistance with their email addresses can stop in anytime between 8 am and 5 pm.

Library

The United Tribes Technical College Library is an integral part of the college. Although the UTTC Library welcomes all users, the library collections and facilities are primarily intended for the college community. Every effort is made to provide access to materials that continually support the curriculum needs of the college.

UTTC believes that everyone served by the UTTC Library have access to accurate and comprehensive information. To ensure that access, the Library provides instruction in information literacy through a variety of formats. Information literacy aids the patron in lifelong decision making skills and enhances lives and culture of the community.

The UTTC library is located in the lower level of the Jack Barden Center. The library's approximately 9,000 volumes are an integral part of the academic life of the College, supporting the vocational and academic programs through reference and research.

It has a sizable Native American collection. Approximately 100 magazine and journal titles and 40 daily and weekly newspapers are maintained to provide students and staff with materials for study, research and recreational reading.

The library's holdings are in info*lynx, an automated catalog. Info*lynx can be accessed 24 hours a day at infolynx.org or uttc.edu. This computerized catalog provides on-line access to library resources, member regional libraries and to several periodical indexes with many full-text articles. Computer access links the UTTC library to the major academic and public libraries in North Dakota. Resources not available locally may be requested through interlibrary loan. The internet can be accessed for research at the library. The college community is encouraged to utilize library services and facilities. Remote access to UTTC library services is permitted and encouraged. Library instruction to promote information literacy skills for lifelong learning is offered to classes and individuals.

Eligible Borrowers and Borrowing Privilege

The UTTC Library has a prime responsibility to serve the students, faculty, and staff of the college.

The secondary mission of the library is to provide materials and service to the patrons of the consortium libraries of Central Dakota Library Network (CDLN). Also the UTTC Library supports service to the residents of North Dakota through ND networks systems and the North Dakota Library Association’s Network for Knowledge.

A valid UTTC Library card or CDLN member library card is required to check out materials. Applications are available at the Library circulation desk. Proper I.D. is required. UTTC Online students can contact the librarian by telephone at (701) 221-1282 to apply for a library card.

Acceptance of a library card signifies agreement to follow library policies. Failure to adhere to the policies can result in a library hold at the UTTC Registrar’s office. UTTC Library card holders are responsible for any fines or fees incurred on their card from overdue or lost items from UTTC and /
Copyright Policy

The purpose of the UTTC Copyright Compliance Policy is to provide a summary of U.S. copyright law as it relates to the use of text-based copyright-protected works in the classroom, online and library at UTTC, and to provide guidelines and procedures for obtaining copyright permission to use these works.

U.S. copyright laws contain many gray areas, and the goal of this policy is to provide UTTC administrators, faculty, librarians, students, employees, and others with a standard approach for addressing complex copyright issues. This policy covers classroom issues such as photocopying, online and distance education, and course packs.

This policy provides practical advice and procedures on copyright-related matters; however, it is not a substitute for legal advice, and proper legal advice should be obtained when necessary. Please initially contact the UTTC Library with copyright questions at: (701) 255-3285 ext. 1282.

Photocopying for Students

The UTTC Library staff may make reproductions for library users (students, faculty, etc.), provided the following criteria are met:

- The library makes one reproduction of an article from a periodical or a small part of any other work.
- The reproduction becomes the property of the library user.
- The library has no reason to believe that the reproduction will be used for purposes other than private study, scholarship and research.
- The library displays the register’s notice at the location in which library users make their reproduction requests to the library.

Photocopying by Students

Photocopying by students is subject to a fair use analysis as well. A single photocopy of a portion of a copyright-protected work, such as a copy of an article from a scientific journal made for research, may be made without permission. Photocopying all the assignments from a book recommended for purchase by the instructor, making multiple copies of articles or book chapters for distribution to classmates, or copying material from consumable workbooks, all require permission.
Art Gallery & Bookstore

The college bookstore is open during regular business hours Monday through Friday to all students, staff, and visitors.

The college Art Gallery & Bookstore sells textbooks, supplies, book bags, t-shirts, sweatshirts, jackets, mugs and cards. T-shirts and sweatshirts are available in sizes infant to adult 3X. You can also purchase these items on the UTTC Online Store!

Students must present a copy of their current course schedule when purchasing textbooks. The course schedule includes the course codes and numbers, which are specifically assigned to each class.

The Art Gallery & Bookstore will sell used books when available. If textbooks are returned, due to an error at the time of purchase, within one week and in new condition, the Bookstore personnel will accept the textbook(s) and credit the student's account for the cost of the textbook(s). Defective books will be replaced at no charge.

The Art Gallery & Bookstore is located in building 10 on Sisseton Street.

Information Technology Department

The United Tribes Technical College Information Technology (IT) department is on hand year-round to provide technology services and infrastructure support to UTTC faculty, staff, and students. With services such as networking, desktop applications, web services, telephone and more, the IT department strives to provide computer and communications services to the campus community that are up-to-date, stable, and secure.

The IT office is located in the Skills Center. Students who need assistance with their email addresses can stop in anytime between 8 am and 5 pm.

United Tribes Technical College
Admissions

Campus Visits
Anyone interested in attending UTTC is welcome to visit the campus at any time; prospective student tours begin in the Admissions Office. Tours are available all year round from 9 am - 5 pm. To schedule a tour please contact the Admissions Office or complete the online form available at www.uttc.edu. UTTC Admissions will contact the requestor to confirm availability.

Admissions Policy
United Tribes Technical College (UTTC) maintains an “open door” admissions policy and welcomes all qualified applicants. The college believes that every person who has a sincere interest in learning should be given the opportunity to do so; however, the general policy does not ensure admittance to a particular course of study or to all applicants. Some programs have limited enrollment and may have more stringent academic, medical, and legal requirements. Applicants must have earned a high school diploma or GED. Admittance priority is given to those who are members of a federally recognized tribe and who have demonstrated the ability to pay for their education. All applicants, including those returning to UTTC after an absence or following graduation, may be subject to a criminal background check.

Admissions Procedure
The UTTC Admissions Office will consider all applicants for admission to UTTC and will process and review all applications. The Admissions Office makes all initial acceptance and denial decisions. Reviewed applications are referred to the Committee Review Team (Financial Aid, Student Accounts, and Campus Security) to certify that applicable standards have been met for registration.

A request for admissions shall not be granted in the absence of all required documents, as detailed in this procedure. The details of the procedure are as follows:

1. The Admissions Office will certify that the student’s application file is received on time (per the academic calendar deadlines) and includes all required documents.
2. All students with a felony record will be subject to a background check and security review prior to consideration for acceptance. The college reserves the right to refuse admission to any applicant with a criminal background. Any applicant found to have failed to disclose all or part of a criminal record is subject to suspension or expulsion if the failure is discovered after the applicant is admitted. An applicant who is a registered sex offender will not be admitted to any on-campus programs, but may be eligible for online programs. Criminal convictions of various kinds may bar a student entering into certain programs, including: criminal justice, teacher education, and any other program where a criminal record can hinder licensure or certification in that academic discipline.

The Student Code of Conduct panel determines decisions regarding background checks and security reviews for admissions purposes. The background check process can take up to four (4) weeks for completion. Please be aware of the additional time needed to process applications with criminal convictions and all admissions deadlines.

3. If all required documentation has been received, and all other admissions criteria is met, the applicant shall be eligible for admissions into UTTC.
4. All offers for admission are conditional based upon the completion of the final requirements identified in the student’s acceptance letter, which must be complete prior to registering for classes. The Committee Review Team will verify that all requirements have been met, including a completed FAFSA and Student Account Review. An admissions hold will remain in effect until the final requirements are complete.

NOTE: The Elementary Education BS degree program has separate admissions requirements in addition to the college requirements. For more information about admissions to this program, visit the UTTC website at www.uttc.edu.

New Student Orientation
All New and Transfer accepted applicants must attend orientation prior to registering for classes. All Stop-Out Returning applicants who have not attended UTTC for one year or more are encouraged to attend orientation. This orientation provides important information about campus, classes, and faculty and an opportunity to meet other students. It is designed to help students better understand
college requirements and make a successful transition to UTTC life. An Admissions hold will remain in effect until orientation attendance is confirmed.

Placement Test Policy (ACCUPLACER/ACT/SAT)
The Accuplacer test and other accepted placement tests (ACT/SAT) are used for academic assessment and to determine course placements. The Accuplacer test will be administered each semester for all new and transfer students, if necessary, to assess their academic needs.

Exceptions
- Students who have taken the ACT or SAT prior to registration will not be required to the Accuplacer tests. Test scores must be within the past three (3) years from date of application.
- Previous Accuplacer scores, taken within the past one-year from date of application, will be accepted.
- Students accepted in the Welding and Heavy Equipment Operations certificate programs are not required to take the Accuplacer Exam.

Admissions Requirements
All documents submitted for admissions purposes become property of United Tribes Technical College and cannot be photocopied or returned.

First Year Applicants
Applicants applying for admission who have not attended college after high school graduation or GED completion:
- Completed application for admission
- Official high school transcripts or GED scores

NOTE: If you are a current high school student, a hold will be placed on your account until the final high school transcript is received.
- Copy of degree of Indian blood
- Copy of immunization record showing proof of two (2) MMR shots and Meningococcal is required, if age 21 or younger and/or residing in the dorms
- Copy of a photo ID with birth date
- Completed housing application along with marriage certificate if applying for family housing.
- Completed dorm application if residing on campus
- ACT test scores. UTTC will provide Accuplacer testing during orientation if applicant has not taken ACT test.
- A completed FAFSA application

Stop-Out Returning Applicants
Applicants applying for admission who attended UTTC in the past and have not attended any other colleges since then:
- Completed application for readmission.
- Copy of degree of Indian blood
- Copy of immunization record showing proof of two (2) MMR shots and Meningococcal is required, if age 21 or younger and/or residing in the dorms
- Copy of a photo ID with birth date
- Completed housing application along with marriage certificate if applying for family housing.
- Completed dorm application if residing on campus
- A completed FAFSA application
Transfer Applicants
Students who have attended another institution of higher education:
• Completed application for admission
• $10 application fee for transfer students
• Official transcripts from all other colleges or universities previously attended mailed directly to the Admissions Office.

NOTE: Failure to disclose and provide official transcripts for all previously attended schools, colleges, and universities during the admissions process
• Copy of degree of Indian blood
• Copy of immunization record showing proof of two (2) MMR shots and Meningococcal is required, if age 21 or younger and/or residing in the dorms
• Copy of a photo ID with birth date
• All Transfer Bachelor’s applicants must meet program of study requirements (Refer to # 3 of Admissions Procedure)
• Completed housing application along with marriage certificate if applying for family housing
• Completed dorm application if residing on campus
• A completed FAFSA application

Continuing Bachelor’s Applicants
Students who have graduated with an AA/AAS degree from UTTC and are continuing on for a bachelor’s degree:
• Meet program of study requirements (Refer to # 3 of Admissions Procedure)
• Completed application for admission
• Completed housing application along with marriage certificate if applying for family housing
• Completed dorm application if residing on campus
• A completed FAFSA application

Online Applicants
A student who is pursuing their degree completely online:
• Completed application for admission
• A completed FAFSA application
• Official high school transcripts or GED scores, or official transcripts from all other colleges or universities previously attended mailed directly to the Admissions Office

NOTE: If you are a current high school student, a hold will be placed on your account until the final high school transcript is received.
• Copy of degree of Indian blood
• ACT test scores
• Complete the survey, “Is Online Learning for Me?”
• Copy of a photo ID with birth date

Non-Degree Seeking Applicants
An applicant with a high school diploma or GED who wishes to take undergraduate courses and does not want to pursue a degree at UTTC.
• Completed application for admission
• Copy of degree of Indian blood
• Copy of a photo ID with birth date

NOTE: Should a change be made from non-degree seeking to degree seeking; an admissions application must be completed to indicate the intended degree or certificate. All Admissions requirements must be met.
** A non-degree seeking student is not eligible for financial aid funding

Staff and Faculty Applicants
• Completed application for admission
• Official transcripts from all other colleges or universities previously attended mailed directly to the Admissions Office
• Copy of degree of Indian blood
• Copy of a photo ID with birth date
• Employee Tuition Waiver form completed and approved prior to starting classes
Dual Credit Applicants (High School)

United Tribes Technical College invites eligible students to take a limited number of credits of undergraduate study while they are still in high school. All of the academic policies that apply to regular undergraduate students at the college apply to dual credit students, in addition to the academic policies specifically referring to dual credit students. Students invited to apply to the college as dual credit students must submit the following documents in order to be considered for participation:

• Completed Dual Credit application for admission
• Copy of degree of Indian blood
• High school transcript
• Parental Consent Form
• FERPA Release of Information Form
• Student Enrollment Agreement
• Complete the survey, “Is Online Learning for Me?”

International Student Policy

UTTC accepts applications for admissions from non-U.S. citizens who are lawful permanent residents of the United States.

• Completed application for admission
• Official high school transcripts, or official transcripts from all other colleges or universities previously attended mailed directly to the Admissions Office
• Naturalization Certificate or Permanent Resident Card
• Copy of Social Security Card

• Copy of immunization record showing proof of two (2) MMR shots and Meningococcal is required, if age 21 or younger and/or residing in the dorms
• Copy of a photo ID with birth date
• A completed FAFSA application
• Completed housing application along with marriage certificate if applying for family housing
• Completed dorm application if residing on campus

In addition, applicants for admissions must submit certification of satisfactory completion of one of the following measures of English proficiency:

• TOEFL: minimum score of 550 on paper-based test, 213 on computer-based test, or 80 on internet-based test
• IELTS: minimum score of 6.5
• ELS: Level 112 score
• Pearson English Test – Academic: minimum score of 58.
• Completion of college-level English course (Composition I and/or Composition II) completed at a regionally accredited U.S. post-secondary College and/or university with a grade of ‘C’ or higher and reflected on applicant’s official transcript.

All transcripts (Secondary and Post-Secondary) for education completed outside of the U.S. must be evaluated by World Education Services (WES), www.WES.org.

Application Status

Applicants may track the status of their admissions applications by logging into MyUTTC, https://www.myuttc.edu, with the user ID and password assigned in their initial acknowledgement correspondence (letter and e-mail). If a user ID and password are not received, please contact UTTC Admissions.

Wait List for Academic Programs

Each year, the number of qualified applicants exceeds the number of available spaces in certain certificate and degree programs. This is most common in the Welding and Heavy Equipment Operations certificate programs, and occasionally in the Sustainable Agriculture and Food Systems and Computer Information Technology AAS degree programs. As a result, the UTTC Admissions Office maintains an active wait list of qualified students to fill spaces in these programs.

Check for catalog updates at www.uttc.edu
programs that might become available.

Any student who has been accepted to UTTC and is on a wait list for one of these programs may choose to register for classes in another academic program, most often General Studies. If a spot opens in the wait-listed program, qualified students on the wait list are contacted by the Admissions Office and offered the opportunity to do a degree change at the end of the semester. Applicants may also choose to delay their enrollment to the next semester in anticipation of a secured spot in the program. For more information, contact the UTTC Admissions and Recruitment Director.

Concurrent and Sequential Degrees

Glossary of Terms

Concurrent degree: UTTC refers to concurrent degrees as dual majors.

Dual major: The student is completing two academic programs, or degree majors, concurrently (at the same time). The student graduates with two degree majors at the same time in the same semester.

Dual Major Requirements

Students must meet the entrance requirements for each major. The dual majors must be declared by completing the Recommended Academic Progress (RAP) form, with signature approval, no later than the end of the first week of the student’s second semester.

Levels of Study

Dual majors must be at the same level of study and are only an option for associate degrees (AS and/or AAS). Baccalaureate (BS) degrees and certificate programs cannot be completed concurrently. If a student intends to complete two BS degrees, or certificate programs, they must be complete them sequentially.

Graduation Requirements

• Requirements in effect at the time of entrance to each degree major must be met prior to graduation.
• General education courses may be used to meet the requirements for both majors.
• The student must take courses from both degree majors every semester to qualify as a dual major.
• The student will have one primary advisor for one degree major and a secondary advisor from the other major.
• A student graduates from both degree majors in the same semester.

Academic Records

Degree Audit: At the time a student is admitted, the degree and year are listed on the degree audit. Up to two degree majors can be listed. A separate degree audit is generated for each degree.

Transcript: The student has one transcript, regardless of having dual degree majors.

Diploma: The student receives a diploma for each degree major earned.

Student Action

The student will:
1. Initiate a meeting with the Financial Aid Office to discuss rationale for combining majors and the impact on financial aid eligibility.
2. Meet with the Academic Advisor from one of the degree majors to complete a Recommended Academic Plan (RAP) form that identifies which courses will be taken when. This advisor is considered the primary advisor.
3. Meet with the Academic Advisor from the second degree major to expand on the RAP form, adding the courses from the second major. This advisor is considered the secondary advisor.
4. Submit the completed RAP form to the Vice President of Academic Affairs (VPAA) for approval and signature.
Application Deadline and Approval Notification

If the student’s request is approved, the VPAA will reproduce the RAP form and send a signed copy of the RAP form to the student, the Registrar’s office, and the Department Chairs for both degree majors.

Cancelation of an Approved Dual Major

To cancel an approved dual major, the student must notify the primary advisor by email and register for courses in one major only the following semester. The primary advisor will forward the email to the Registrar’s Office and the secondary advisor.

Sequential Degrees

Glossary of Terms

Sequential degree: The student graduates with an associate (AS/AAS) or baccalaureate (BS) degree program and enrolls in another AS/AAS or BS degree.

Returning student: The student who “stops out” for one or more semesters and then returns for another degree. Returning students are required to re-apply to the institution.

Entry Requirements

Approval for admission to a sequential degree must be obtained from the Admissions Office. The student must meet financial aid, student accounts and housing (if applicable) requirements, as part of the admissions process, similar to being admitted for any degree program.

Some academic departments have additional entrance requirements. Students should contact the appropriate Department Chair for specific information.

Levels of Study

- A student who has earned a BS degree may seek another BS degree; a student who has earned an AS/AAS degree may seek another AS/AAS degree or BS degree.
- A student who has earned a BS degree cannot enroll in an AS/AAS degree after completing the BS degree. Instead, the student is encouraged to complete another BS degree or continue his or her education in a graduate degree program.
- A student can complete no more than three AS/AAS degrees from UTTC.

After the third AS/AAS degree, the student will apply to the next level and complete a BS degree.

Academic Records

Degree Audit: The student’s sequential degree will be listed on the degree audit.

Transcript: Each student has only one undergraduate transcript, regardless of the number of degrees earned.

Cumulative Grade-Point Average: When a student enrolls in a sequential degree, the student’s cumulative grade-point average is computed using the grades earned in all UTTC courses, including those from any previous degrees completed.

Diploma: Upon completion of the sequential major, the student receives another diploma.

Student Action

The student will:

1. Contact the Financial Aid Office about the availability of funding for a sequential degree. If the student is eligible for continued funding, the student will proceed to the next step.
2. Officially apply for the sequential major, follow the Admissions process for UTTC on the UTTC website.

Adviser Assignment

The student is assigned an Academic Advisor when accepted for admissions for the sequential degree.
Financial Aid

The mission of the Financial Aid Office is to provide prospective and enrolled students with information and resources to financially support their educational goals. We will work together to provide service in a timely, equitable and caring manner.

We sincerely hope that the services and financial aid we offer will help you achieve your educational goals at UTTC.

How to Apply for Federal Student Aid

- Getting federal student financial aid begins with completing the Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov.
- You will need to create an FSA ID and password. Your FSA ID is your personal signature and allows you to access your FAFSA information online. You will need your FSA login information for all future FAFSA applications, and because the credentials are linked to your social security number, you cannot create multiple accounts. You will need to sign your online FAFSA form using your FSA ID and Password in order to submit your FAFSA. If your parent is going to sign your FAFSA form electronically, they will need their own FSA ID.
- If you have already filed the taxes needed for your FAFSA, you may be able to use the IRS Retrieval Tool. The tool is accessible through the online FAFSA application, and will connect you directly to the online Internal Revenue Service for your tax data. Using the IRS Retrieval Tool reduces the chances of having your FAFSA selected for Verification by the Department of Education, which may delay your application.
- Be sure to file early to meet deadlines.
- Students cannot register for classes until their FAFSA is completed for the academic year.

What Happens Next

- You will get a Student Aid Report (SAR) summarizing your FAFSA and including your Estimated Family Contribution. Review it and make any corrections. You may also have to complete additional paperwork if you have been selected for a process called Verification. A representative from the Financial Aid Office will inform you if this happens.
- Next you will receive an award letter from UTTC Financial Aid Office stating the aid you can expect if you attend school. Consider the options outlined in the letter including grants, scholarships, loans and work-study programs.
- You will need to accept your financial aid awards by signing and returning your award letter to the financial aid office before any funding can be received by our office on your behalf.

If you need a student loan to help cover the cost of attendance complete the following:

- Complete your Master Promissory Note (MPN) at www.studentloans.gov.
- Complete your Entrance Counseling at www.studentloans.gov.
- Complete Financial Literacy at https://saltmoney.org. For more information contact the Financial Aid office.

Apply for Aid Each Year You are in College

- You must complete the FAFSA each year. Be sure to keep your FSA ID and Password in a safe place as you will need it each year in order to renew your FAFSA.
- Never assume that because you received aid in one academic year you will automatically get it again the next year. Review each program’s application procedures carefully and reapply each year when necessary.
- If you filled out a FAFSA the year before, you can use the shorter Renewal FAFSA application located at www.fafsa.ed.gov.
Grants, Scholarships and Awards

Grants, scholarships and awards come from several sources, including UTTC, the state of North Dakota and the federal government. Other sources include funding from Tribal agencies, corporations, unions, trust funds, religious and fraternal organizations, and other associations.

Grants, scholarships and awards do not have to be paid back. You should always explore the “free money” opportunities available to you.

NOTE: Scholarships and Tribal Agency funding have a variety of application deadlines. Please refer to the UTTC website for specific information related to each funding source. It is important to apply early.

Financial Aid Programs

United Tribes Technical College is proud to offer many forms of financial aid.

- **Native American Tuition Waiver:** UTTC will be offering a tuition waiver for Native American students. Starting Fall 2019, any student who selects a tribal affiliation on their application will be automatically applied for the Native American Tuition Waiver:
  - **Fall 2019** - July 1, 2019
  - **Spring 2019** - November 1, 2019
  - **Summer 2020** - April 1, 2020

Eligibility information and application can be found at: [https://uttc.edu/native-american-tuition-waiver/](https://uttc.edu/native-american-tuition-waiver/).

- **Federal Pell Grant:** This is a grant program for undergraduate students based on financial need, cost of attendance and student enrollment.

- **Federal Supplemental Educational Opportunity Grant (FSEOG):** FSEOG is awarded to undergraduate students with exceptional financial need – those with the lowest EFCs. Limited funds are available.

- **Federal Work Study Program:** The Federal Work-Study Program (FWS) is a federally funded need-based student employment program. FWS funds are earned through campus-based employment opportunities and paid bi-weekly for hours worked. FWS is designed to promote student leadership and development through employment opportunities while also assisting students with the financial means to defray educational costs.

- **Leadership through Experience Program:** the Leadership through Experience Program (LTE) is an institutionally funded need-based student employment program. LTE funds are earned through campus-based employment opportunities and paid bi-weekly for hours worked. LTE is designed to promote student leadership and development through employment opportunities while also assisting students with the financial means to defray educational costs.

- **Institutional Scholarships:** UTTC administers a variety of scholarship funds set up to benefit UTTC students. The Financial Aid Office facilitates the award of various scholarships based on financial need and academic achievement. Such grants are awarded to students based on the eligibility and selection criteria provided by the funding source. Requirements vary from program to program.

- **Private Scholarships:** Students are encouraged to search online or through local agencies for private scholarships. Many scholarship opportunities are available through various businesses and foundations. When searching online for scholarships, students should use caution and be aware of scholarship scams. Never pay to send a scholarship application in, and never give out personal banking or other financial information.

- **Tribal (Agency) Funding:** Students enrolled in a federally recognized tribe should apply for tribal (agency)funding. The Financial Aid Office can assist with these applications, be sure to apply early as deadlines may vary.

- **Workforce Innovation & Opportunity Act (WIOA):** The Workforce Innovation & Opportunity Act is funded through the Department of Labor. This program will assist eligible Native American participants with the following training services: workplace training, occupational skills training, skill upgrading/retraining, on-the-job training, workplace instruction, and education/tuition assistance.

- **Vocational Rehabilitation:** Vocational Rehabilitation offices support individuals who are training or retraining for a new
profession due to a diagnosed disability or injury. The programs are administered by state and tribal governments. Students are encouraged to contact their tribe’s Tribal Agency Vocational Rehabilitation Office and/or local county office for further information on assistance programs available to them. The Financial Aid Office can provide further information about the UTTC vocational rehabilitation program.

Semester Tuition and Fees

**Semester Tuition and Fees**

100-200 Level Courses ...................... $115.00
300-400 Level Courses ...................... $200.00

**Audit courses**, charged the same as 100-200 level and 300-400 level courses.

Audit courses must be paid prior to the start of the course.

**Mandatory Fees:**

All students pay mandatory fees of $43 per credit hour up to 12 credits per semester. This includes costs of activities, student government, facilities and technology fees. Classes taken for audit are not assessed the mandatory fees.

**Program Fees:**

- **Automotive Technology**
  - (1st term).......................... $1150.00
  - (2nd term).......................... $1150.00
  - OSHA 10 Fee.......................... $25.00

- **Elementary ED BS Degree**
  - (EDU 310).......................... $170.00

- **Elementary BS Degree Coop Teaching Fee** (EDU 499) ....................... $860.00

- **HEO Program** .................. $450.00

- **Welding Technology**
  - (1st term).......................... $350.00
  - (2nd term).......................... $150.00

Supplies required to complete course requirements will be available for purchase at the UTTC Bookstore; students may purchase supplies at a vendor of choice also.

Tuition and fees were put in effect Fall 2016 semester. These costs are subject to change without notice.

**Fees Charged to Students in UTTC Managed Housing**

Subject to change. For current rates, refer to the UTTC website.

**Other Financial Aid Information**

Financial assistance may be given to students who are in a program that awards certificates, diplomas, associates, or bachelors degrees. Students who are not enrolled in a degree seeking program may not be eligible for financial aid.

**NOTE:** Students may take preparatory courses for up to one academic year. Financial aid may be available for this coursework if the classes are prerequisites for the degree program selected by the student.

**Internship and Practicum**

Some UTTC degree programs require students to participate in professional experience activities such as internship and practicum courses for credit. Students are responsible for all of the costs associated with these courses. Students may contact their...
Academic Advisor(s) and Financial Aid staff to see if any assistance is available.

**Withdrawal Policy**
If a student officially withdraws from one or more courses during a period of enrollment, they may be subject to the cancellation, proration, return or recalculation of all or part of their financial aid award, subject to the determination made by the Financial Aid Office and the funding agency. Failure to attend any classes in a semester will result in the automatic return of all financial aid funding received for a student, although the student will still incur charges.

**Scholarships**
The Financial Aid Office facilitates the disbursement of scholarships awarded to UTTC students. It is the student’s responsibility to comply with scholarship eligibility requirements.

Athletic scholarships may be offered depending on availability of funds. Athletes must maintain full time status and satisfactory academic progress, as determined by the conditions of their award.

**Transfer Students**
Students transferring to UTTC from another institution of higher education shall have their financial aid eligibility evaluated before attending classes at UTTC. Academic entrance requirements, including the assessments of prior course credits completed, may affect the determination of financial aid. Students who are on financial aid probation or suspension from another institution may be admitted into UTTC under probationary status pending a review of their transcripts.

**Students & Military Service**
A student not on active military service at the beginning of an academic term and who is called or ordered to active military service for fourteen (14) consecutive days or longer during the term shall have the right, at the student’s option, to withdraw from classes. The following criteria apply:

- The student may withdraw from any or all classes in which the student is enrolled, even if after the established deadline for withdrawal.
- The student is entitled, subject to applicable laws or regulations governing federal, state or tribal financial aid programs, to a refund of tuition and fees.
- The student shall not receive credit or a grade for classes from which the student withdraws.
- A student in good standing at the time of exercising this right shall have the right to be re-admitted and re-enroll, without penalty or redetermination of admission eligibility, within one year following release from active military service.

**VA Benefits Chapter 31/33 Covered Individuals**
Definition: A *covered individual* is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill benefits.

- UTTC permits any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a “certificate of eligibility” can also include a “Statement of Benefits” obtained from the Department of Veterans Affairs’ (VA) website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:
  1. The date on which payment from VA is made to the institution.
  2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.
- UTTC will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

**Financial Aid Disbursements**
All financial aid received on behalf of the student is first applied to all eligible charges. Credit balances are refunded in accordance with federal regulations for handling of Title IV funds. Students are responsible for all expenses that they incur while attending UTTC.

**Limitation of Student Debt**
Students are liable for charges they incur at UTTC. Students who owe between $200 and
$749.99 as determined at the end of a semester of enrollment will be subject to probation until the debt is paid in full. Students on probation for debt will be able to register for one additional semester but not subsequent ones, per UTTC policy. Students who owe $750.00 or more will be placed on financial suspension and are not eligible to register for subsequent semesters pending sufficient payment of the student account debt.

Students that owe a balance to the college are encouraged to participate in the college’s Leadership through Experience program. Contact the Financial Aid Office for more details.

**Satisfactory Academic Progress (SAP)**

Federal regulations require that all students who receive financial aid must maintain satisfactory academic progress and work towards an eligible degree or certificate. In addition, federal regulations require students be on pace to complete their degree or certificate before reaching the 150% maximum time frame limit (see maximum time frame eligibility section below for more information).

At the end of each semester, student grades will be reviewed to determine credits attempted and earned. In addition, grades will be reviewed to determine the student’s failure to meet SAP standards for all terms enrolled, at UTTC; which may result in loss of federal aid eligibility. Federal/State Regulations require students to achieve a minimum level of SAP. UTTC adheres to this policy and the following is an overview of the policy:

- The student must have a term GPA minimum of a 2.00 and maintain an overall career GPA minimum of a 2.00.
- Each semester the student must pass 67% of the credits that he/she is enrolled in for the term and maintain an overall career completion rate of 67%.
- The Department of Education mandates that a student has a maximum timeframe to complete their education program. Therefore, this policy adheres to the **Maximum Time Frame** requirement not to exceed 150% of the published length of the educational program. Information may be subject to change without notice due to changes in federal, state and/or institutional rules and regulations.

***Sec 484 (a)(2) - In order to receive Title IV (TIV) aid the student must be maintaining Satisfactory Academic Progress (SAP) in the program of study.***

**SAP Levels**

**Financial Aid Warning**

Any student who fails to meet and maintain the term and career GPA minimum of a 2.0 and/or meet the term and career completion rate (pace rate) standard which is 67% is automatically placed on Financial Aid Warning. The student will continue to receive federal financial aid for one semester/payment period.

**Financial Aid Suspension**

Any student that does not meet the minimum requirements for SAP at the end of the Financial Aid Warning semester will be ineligible for federal financial aid, institutional aid, and/or VA benefits until SAP standards are met. This means that the student will not receive any federal financial aid the next semester and will have to find other means to continue his/her education. However, a student has the right to appeal the loss of financial aid eligibility if mitigating circumstances (events beyond the student’s control) occurred during the preceding semester/payment period. The student will also be required to complete an academic plan with his/her advisor and return it along with an appeal before any federal aid can be reinstated.

A student must complete the Satisfactory Academic Progress Appeal Form and attach the supporting documentation and submit it to the Financial Aid Office by the deadline date. Appeals received after the deadline can be automatically denied. The decisions of the Financial Aid Office are final and students will receive an electronic communication to their UTTC email address regarding the outcome. A student who successfully appeals the loss of his/her financial aid termination will be placed on Financial Aid Warning for the following semester/payment period in order to retain financial aid.
Federal Work Study Program (FWS) & Leadership through Experience (LTE)

To qualify for the Federal Work Study Program students must complete the Free Application for Federal Student Aid (FAFSA). Students must have a minimum GPA of 2.0 and must have exhausted all funding resources. This is a need based program that will allow students to work part time and earn money to help pay for their educational expenses while they are in school. Contact the Financial Aid Department for more details.

Cost of Attendance Information

All information regarding cost of attendance for UTTC students is currently published on the college’s website. Go to www.uttc.edu and select “Financial Aid” for further information.

It is the student’s responsibility to make sure all transactions have been completed. Students have the ability to view their account and class schedule online by logging in to My.UTTC.edu to verify transactions are complete and accurate.

IMPORTANT: Students who are registered for classes at UTTC are responsible for the balance due in full by the end of the term. Students may be subject to financial suspension if not in compliance to the Limitation of Student Debt policy.

Registrar’s Office

Registration

Registration is one of the conditions required to maintain enrollment at United Tribes Technical College. To register is to become an official member on a class roster. To be officially enrolled, students must clear their fee bills and be registered in at least one course by the end of the add/drop period. Students who fail to do this are not eligible for College services or use of facilities.

Enrollment in regular College courses is available through the regular College registration procedures, administered by the Registrar, to full-time and part-time degree seeking students, and to non-degree seeking students.

All students must register for their courses with their Academic Advisor prior to attending classes. Registration deadlines are listed on the official Academic Calendar and all students must register within the dates specified there.

Prior to registering, students are strongly encouraged to log into their MyUTTC to view possible registration holds. Students with registration holds will not be allowed to register. Therefore, students with a registration hold must contact the appropriate office to resolve the outstanding issue(s), so that the hold can be lifted.

Academic Advising

All academic departments have academic advisors who are readily available to assist students with questions pertaining to academic regulations and procedures, selection of courses that satisfy degree requirements, major options, and alternatives. Academic Advisors confer with students about overall degree requirements, academic difficulty, program planning, or assistance with anything related to academics. All Department Chairs and faculty serve as Academic Advisors for students in their programs.

Name/Address Change Request

A student who chooses to change or correct his or her name on academic records will need to complete and submit the Name Change Form (available on the UTTC website) and provide the following documentation:

- A student ID card or driver’s license with the former name, and
- At least two of the following documents, with one having a photograph for verification purposes:
  - Driver’s license
  - Passport
  - Birth certificate
  - Tribal ID
  - State ID
  - Social security card
The student will bring the completed form and required documents to the Registrar's Office or mail them to the following address:

United Tribes Technical College
Registrar's Office
3315 University Drive
Bismarck, ND 58504

All requests for changes or corrections of a name must be accompanied by the required legal documentation. Photocopies are sufficient if the student is mailing the request. A student can change his or her local or permanent address, email address or phone number by contacting the Admissions and Recruitment Office. The majority of communications from UTTC are provided to students by email. This includes notifications regarding billing and instructions related to registration. If a student is expecting a refund or waiting for information from any of the departments on campus, the address on file will be used for mailing purposes. The email address and telephone number provided when the student applied for admissions to UTTC will be used unless the student requests it changed.

It is important to make sure the permanent mailing address is accurate when the student graduates. The diploma and any alumni information will be mailed by the Registrar's Office to the permanent address on file at the time of graduation.

Preferred First Name Procedure

In an effort to accommodate students who are known by a first name that is different from their legal first name, UTTC has created a preferred first name option for student information as it appears in select locations. Students will be able to request adding a preferred first name to their student information profile by submitting the completed Preferred First Name Form to the Registrar's Office that includes the circumstances for the request. The completed form will be maintained in the student's confidential file. The form is available on the UTTC website.

The Registrar will consult with the student’s Academic & Personal Counselor and respond to the student within five (5) days of receiving the request. If approved, the preferred first name would replace the student’s legal name as it appears on course lists, student email, and the directory.

UTTC endeavors to display preferred first names to the UTTC community where feasible and has made a good faith effort to update the systems that are designated to use a preferred name. In the event the student's preferred first name is not displaying correctly, they must contact the Registrar’s Office.

Disclaimer:

UTTC reserves the right to approve or disapprove preferred first name change requests.
Required Use of Legal First Name

In some instances, students’ legal names must always be used regardless of whether preferred names have been added to the system. Legal names will always appear on all external use reports and documents including, but not limited to, hiring paperwork, paychecks, student billing, financial aid forms, tax forms, official transcripts, official diplomas, and any other documents required by law. Legal first names can only be changed on these records when students pursue a legal name change with their home state and/or federal authorities and then submit that documentation to the Registrar’s Office. If students are using a preferred name in the campus systems they must be prepared to use legal name and identification in all instances where legal identification or official information is necessary.

Transfer Credits & Transcript Evaluations

The Registrar’s Office administers the policy that grants the transfer of credit for courses completed at other regionally accredited institutions of post-secondary education. Department Chairs will be consulted on transfer course equivalencies pertaining to their respective fields.

The following steps are followed when requesting the transfer of credits from other colleges or universities:

1. Initiating Transfer Evaluation Request
   - The student requests one official copy of his or her academic transcripts from each of any previous institution(s) and has the official transcript sent directly to the UTTC Admissions & Recruitment Office as part of the application process.
   - The transcript must be in an unopened envelope sealed by the sending institution to be “official”.
   - The student’s official transcripts are forwarded to the Registrar’s Office for an evaluation of transfer credits upon acceptance to UTTC.
   - The Registrar’s Office will complete a Transfer Credit Evaluation Advisement Report for the student that identifies the transfer credits that have satisfied courses on the student’s intended degree plan.
   - The student is advised to review the Advisement Report with his or her Academic Advisor prior to registration for classes.

Credits earned by students who have completed post-secondary courses after high school at regionally accredited colleges or universities will be reviewed for transfer at UTTC. General guidelines for acceptance of transfer credit include:

1. College-level credits (100 level or higher) earned at regionally accredited institutions will be transferred provided a grade of “C”, or higher, is earned in the course.
2. Courses with a grade of “C”, or higher, that fulfill specific degree requirements will be identified on the student’s Transfer Credit Evaluation Advisement Report. The Elementary Education BS degree program requires a “B”, or higher, in 300-400 level teaching methodology courses.
3. Developmental courses will not be accepted for college credit, but may fulfill prerequisite requirements for college level courses.
4. The North Dakota University Systems common numbered courses will transfer in as the direct equivalent course at UTTC, as applicable.
5. Repeated courses can only be granted credit for each course once. The course meeting the highest grade for the transfer of credits policy will be transferred.
6. Credits from institutions on the quarter system will be converted to semester hour credits.
7. Students who have earned credits from an international institution must have their work evaluated by the World Education Services (www.wes.org). The student will be required to provide a fee to the credit evaluating service.
8. In general, undergraduate credits do not expire; however, certain courses (i.e. technology, engineering, education and law-related) taken five (5) or more years prior to the request for transfer will be reviewed on a course by course basis for relevance by the Dean of Instruction to determine if the course(s) meets a degree requirement.
9. Students must submit an official copy of their AARTS or SMART transcript for transfer of military credits. UTTC follows the American Council on Education recommendations for transfer of military credit.
10. Transcripts will include the name of the transferred course, the institution from where it was transferred, and the credit recommendation. Transfer credits will not be included in the student's institutional or cumulative GPA at UTTC.

11. Credit by examination or life experience will be excluded in transfer credit evaluations.

12. Graduate level courses (500 and above), as defined on the transferring institution’s transcript legend, will not be considered for transfer.

13. As with any other institution of higher education, UTTC reserves the right to determine courses for transfer into the College.

UTTC has developed program articulation agreements with several institutions to aid in the transfer process. The program agreements will be used as a guide when choosing courses for transfer, when applicable.

Reverse Transfer Initiative
The UTTC Registrar’s Office supports the North Dakota University System’s (“NDUS”) 407.0 Reverse Transfer initiative to assist students who have transferred from UTTC and are currently enrolled at a NDUS university by offering an additional opportunity to complete an associate degree. This initiative applies to former students from North Dakota public or tribal colleges who completed at least 36 credits while at the college but transferred prior to completing an associate degree. UTTC will work with the colleges and universities to develop a seamless process for qualified students to apply for and be granted this degree. The Reverse Transfer initiative does not apply to baccalaureate degrees.

1. Students who have transferred to a NDUS university or other TCU from UTTC will be eligible to complete an associate degree through the reverse transfer of completed coursework.

2. Eligible students will have completed at least 36 semester hours at UTTC without completing an associate degree prior to transfer to another TCU or an NDUS university.

Allow up to five (5) business days for transcripts requests to be completed. For Electronic Official Transcripts visit the National Student Clearinghouse website.

Graduation Requirements
Each candidate for graduation must fulfill the following requirements for a certificate of completion, an associate degree, or baccalaureate degree:

1. Complete a graduation application and submit it to the Registrar’s Office no later than 14 calendar days before the ceremony, as indicated on the academic calendar.

2. Review the advising worksheet (also referred to as the graduation report) with the Academic Advisor to make sure all program requirements are met. This should be completed prior to the last day to add/drop courses for the semester the student intends to graduate.

3. Verify all personal information is correct in my.uttc.edu and on the graduation application. The name entered on the diploma, and the address to which it will be mailed will be taken from the graduation application.

4. Courses considered for meeting graduation requirements must have been
completed with a minimum grade of 2.0 ("C", or higher). Courses that resulted in a grade of less than 2.0 will not meet graduation requirements.

5. Students who are enrolled in the summer semester, and will have fulfilled the graduation requirements for their program of study at the end of the summer semester, will be allowed to participate in the preceding May commencement ceremony. The degree will not be conferred until the end of the summer semester after grades are posted and the student has met the minimum requirements.

6. The current college catalog will list requirements for the granting of degrees, diplomas and certificates of completion.

**Graduation Ceremonies**

UTTC has two formal graduation ceremonies each academic year. Fall graduates participate in the December commencement (graduation) and spring graduates participate in the May commencement. Summer graduates are allowed to participate in the May commencement immediately preceding the summer semester but diplomas will not be mailed until the summer semester is complete, degree requirements are met, and grades are reported.

**Graduation Attire**

All United Tribes Technical College (UTTC) graduating participants must wear full academic regalia – gown, mortarboard cap, and tassel – in recognition of the significance of commencement (the graduation ceremony). Any exceptions to the academic regalia (gown, mortarboard cap, and tassel) must be requested in writing and approved by the Vice President of Academic Affairs at least five days prior to the date of graduation.

**Accessories Guidelines**

- Gold cords are reserved for honor students (awarded by the Registrar’s Office).
- Other cord colors may be available for other honorary societies.
- Sashes and stoles for student organizations, military, and veteran students, cultural representation, and personal adornment may be worn.
- Pins are presented to graduates from the UTTC Graduation Committee.

**Graduation with Honors**

Graduation with Honors requires having obtained a cumulative GPA of 3.5 or better.

**Changes to Course Registration (Add/Drop)**

Students have the flexibility to make schedule changes during the first two weeks of the semester (one week for the summer semester). This period ends at the Census date identified on the academic calendar. Students can add and drop courses during this time without penalty, meaning they will not be charged for any classes dropped and the dropped class will not appear on the student’s transcript.

**Adding a Course(s)**

Students may add courses during the first two weeks of the semester (one week for the summer semester) prior to Census date. Students must meet the pre-requisites for the added course(s), the course must have open seats, and the Add/Drop Course Form must be completed with instructor and advisor consent, Financial Aid approval and delivered to the Registrar’s Office. The Add/Drop Course Form is found on the Registrar’s Office’s webpage, or at Enrollment Services in the upper level Jack Barden Center.
Dropping a Course(s)

If a student chooses to drop a course(s) prior to Census date (see Academic Calendar), courses dropped will not display on the academic record (transcript). The student will not be charged for courses dropped on or prior to Census date.

Dropping all courses prior to Census date will not affect students’ financial aid eligibility. After Census date, students can drop a course but will be responsible for paying for it. The course will appear on the student’s transcript with a W grade and will count toward attempted credits by the Financial Aid Office.

Students wishing to drop a course(s) will complete the Add/Drop Course Form found on the Registrar’s Office’s webpage, or at Enrollment Services in the upper level Jack Barden Center, and deliver to the Financial Aid Office and the Registrar’s Office for required signatures.

Students should be aware that dropping a course(s) after Census date might affect their full-time status. Students are required to contact the Financial Aid Department as the first step in the add/drop process so they are aware of any impact on financial aid eligibility.

Withdrawal for Non-Attendance

UTTC will initiate a withdrawal at close of business on Census date for students who are registered and have not attended any of their classes during the first two (2) weeks. This will prevent the student from being responsible for payment and having W grades on the transcript. If it has been determined the student has not attended classes, the student’s Academic Advisor will submit a request to the Personal Counselor to depart the student passed on non-attendance during the first two (2) weeks. The Personal Counselor will complete the Official Institutional Withdrawal Form and submit to the Registrar’s Office for processing. The Personal Counselor will notify the appropriate parties on campus that the student is no longer enrolled at UTTC.

Credit by Examination

Currently, registered students in good standing may receive course credit by taking an examination without formally enrolling in a course under certain prescribed conditions. Credit by examination is an option for students who have strong academic backgrounds or who have studied on their own. Students must be registered in the current semester in which the exam is taken to be eligible for credit by examination. Credit by examination may be applied for in any course listed in the current college catalog.

The examination is created by the appropriate academic department and administered by appointment with the instructor. The examination must be completed in a three (3) hour period and taken within thirty (30) days of approval. A passing grade on an examination is recorded with a grade of P for Passing on the student’s academic record. The credits for the course count toward graduation but neither the credits nor the grade is used in the calculation of the student’s grade point average. Examinations that are attempted but not passed are not recorded. Examinations for course credit may only be taken once.

The Petition for Credit by Examination form (available on the Registrar’s webpage) is completed by the student and identifies the course the student wants to petition. The form is subject to the approval of the instructor, the chair of the department involved and the Dean of Instruction or Career and Technical Education Director. The student is responsible for submitting the approved form, with all of
the signatures, to the Registrar with the $10 non-refundable fee. The completed petition and fee must be submitted to Registrar before the examination is scheduled.

The final result of a student's work in an examination for credit shall be reported to the Registrar in terms of a “pass/fail”. Students are not eligible to take a credit by examination in a semester in which they are not currently enrolled.

**Exclusions**
Credit by examination **may not** be used to:

- Duplicate any credit already earned by the student towards their degree.
- Repeat any course a student has taken previously, regardless of the grade earned.

**Petition for Credit by Examination Form Instructions**

The student will:

- Enter the course information from the course schedule and indicate how you intend to prepare for the examination.
- Seek signature approval from the instructor who will administer the examination and specify the examination date. The Department Chair who has oversight of the petitioned course must also sign the form.
- Obtain signature approval of either the Dean of Instruction or the Career and Technical Education Director.
- Submit the approved Petition form to the Registrar with the $10 non-refundable fee.
- Make an appointment to take the examination within 30 days of when the Petition for Credit by Examination form is approved.
- Complete the examination within a three (3) hour period.

After the examination, the instructor will submit the P/F grade to the Registrar. If a passing grade is entered, the graduation requirement for the course is considered met.

Credits earned by examination may not be acceptable for transfer to other institutions. The student is advised to check with that school for their policy on transfer of credits from a course marked as “pass/fail”.

**Substitution of a Course**

Students and Academic Advisors may request that a particular course be substituted for a course required in the student’s major. The course to be substituted may be one that the student has completed at UTTC or at another college/university; it should carry the same credit and level as the course it is to replace. Course substitutions are not reflected on the academic transcript. The Academic Advisor completes and submit the Course Substitution Form to the Registrar’s Office for processing.

**Independent Study Course Procedures**

**Rationale**

These procedures will outline the steps associated with requesting and scheduling an independent study course for a given semester at UTTC. These steps will ensure the requests for independent studies are communicated from the student, to the instructors, and to the Registrar.

**Independent Study Request Procedures**

UTTC recognizes there may be instances when a student needs to take a course that is currently not being offered according to the master course schedule. In these exceptional cases, the course or courses may be offered as independent study courses, providing the following steps have been taken:

1. When the need for an independent study course for a student is determined, the student’s primary advisor will request approval from the Dean of Instruction to offer a course as an independent study course provided there is a legitimate student need (i.e., extenuating circumstances). The advisor will complete the Independent Study Contract form that is available from the Registrar’s Office.
2. The Dean of Instruction will approve, on a case-by-case basis, the independent study course request based on student course need and availability of instructional resources.

3. Provided there is a legitimate student need, approval will be given by the Dean of Instruction to offer the course as an independent study.

4. The advisor will inform the student that the course will be offered as an independent study course, and:
   A. Inform the student the standard tuition rates and applicable fees apply to independent study courses.
   B. Discuss with the student the dynamics of an independent study course, including limited face-to-face instructional time, adherence to student learning objectives and assessment processes, self-directed learning, timeframe and deadlines, adherence to the other course syllabus requirements, etc.

5. The student requesting the independent study must agree to attend scheduled meetings with the instructor, with a mandatory face-to-face meeting with the independent study instructor at the beginning of the course and at the end of the term.

6. The student must sign the Independent Study Student Contract, a copy of which will be given to the student and the Dean of Instruction.

7. Once the advisor has a signed Independent Study Student Contract, the advisor will contact the Registrar’s Office to have the course scheduled as an independent study course. The advisor will provide the Registrar’s Office with the course, name of the instructor, and name of the student. The Registrar’s Office will add the course to the schedule and permit registration for the student. The course will then be closed to additional registrations to ensure other students are not inadvertently enrolled. Independent study courses will be scheduled to run for the same number of weeks as other courses in the term, and maintain established course codes, names and numbers. For ease of identification, these courses will be coded as an “I” section. The independent study course student and instructor will adhere to established instructional policies, including regular tracking of satisfactory academic progress, grading procedures, and submitting midterm and final grades as scheduled. The instructor has the responsibility of maintaining the integrity and high expectations for the independent learning process and its outcomes.

**Student Course Load**

A full-time student is registered for a minimum of 12 credit hours during the fall and spring semester and 6 credit hours during the summer semester. Any student wishing to enroll in more than 20 credit hours in a semester (9 during the summer semester) must submit an email request to his or her advisor who will forward it to the Vice President of Academic Affairs for approval. If the student is approved for an overload, the Registrar will register the student for the additional credit(s).

**Prerequisite and Corequisite Courses**

It is the intent of United Tribes Technical College (UTTC) to guide students into courses in which they will have the greatest chance for academic success. Prerequisites and corequisites for each course are listed in the catalog description. A prerequisite is a course requirement that a student must meet in order to demonstrate current readiness for enrollment in a course or educational program. A corequisite is a course that a student is required to take concurrently (at the same time) in order to enroll in another course.

UTTC requires students to successfully complete prerequisites as pre-enrollment preparation, with successful completion defined as a grade of C or better in the prerequisite course. It is the student’s responsibility to meet the necessary
prerequisite(s) for any course taken. The student may be dropped from any class where it is verified that the necessary prerequisite has not been met.

There are unique instances in which the prerequisite course can be waived. For example, transfer students who have taken a course similar to the prerequisite can submit the Petition for Prerequisite/Corequisite Override form for approval that will allow the student to register for a course without successfully completing the prerequisite course. This form can be found on the UTTC Registrar’s website page.

Corequisite courses at UTTC are courses that require the student to register for two courses at the same time. For example, students enrolled in lab science courses are required to also register for the corequisite lab course. One of the courses provides an opportunity for the student to apply what they are learning in the corequisite course so must be taken at the same time.

If a student chooses to withdraw from a course with a corequisite, the student must withdraw from both the course and the corequisite, and not one or the other. If student fails a corequisite course, and has to retake the course, the student will be required to submit the Petition for Prerequisite/Corequisite Override form prior to registration. If approved, the student will retake the corequisite course he or she failed without having to re-take the corequisite course. This form can be found on the UTTC Registrar’s website page.

Questions about prerequisites and corequisites should be resolved with an Academic Advisor prior to the first day of class.

Catalog Rights

A student must fulfill degree requirements as stipulated in the UTTC college catalog. A student who maintains “continuous enrollment” will adhere to the catalog in effect at the time the student began attending UTTC.

Continuous enrollment is defined as being officially enrolled in one primary term per academic year regardless of the number of credits completed. Active military duty will maintain a student’s continuous attendance status providing the student returns at the first registration for fall/spring semester following release.

Grading

UTTC uses letter grades to evaluate student work in each class. In order to receive grades and credit, students must meet course requirements. Instructors are responsible for determining final grades. A student’s GPA is determined by dividing the number of honor points earned each semester by the total semester hours attempted. The cumulative GPA is determined by the same formula. Incomplete and withdrawn semester hours are not used in calculating a student’s GPA. Semester hours failed are used in calculating GPA. When a course is repeated, the most recent grade will be used to calculate GPA.

A student is required to earn a grade of ‘C’ or higher in any course required for the degree that he or she is seeking. A degree of any type will not be granted until all requirements identified on a degree plan are fulfilled. A grade of ‘D’ or ‘F’ will not fulfill the requirements for any course listed on any degree plan at United Tribes Technical College.

Grade of Incomplete

A grade of I (Incomplete) will be recorded when a student is making progress in classes,
but is unable to complete course requirements for reasons beyond the student’s control and after negotiation between the teacher and the student about how the course can be completed. Except for emergencies, such as exceptional personal illness, a death in the family, or other unforeseeable emergencies, a student must contact their instructor within two weeks prior to an event or events that they feel would interfere with their ability to attend class and finish the semester successfully. The student must have a minimum of a current ’C’ grade or higher at the time the incomplete is requested for it to be considered. A request for an incomplete grade cannot be perceived as a “last ditch” effort to pass a course. Copies of the negotiated agreement will be filed with the Registrar, the advisor, and the student. Students have two weeks into the succeeding semester to complete the necessary work.

The instructor must contact the Registrar’s Office and request to change the incomplete grade to the appropriate letter grade by the deadline or it converts to an “F.”

Grade Changes
The determination of the student’s grade by the instructor shall be final. The following policies apply to changes of grades, except for changes of Incomplete (I) and Withdrawal (W) grades:

- In general, all course grades are final when filed by the instructor at the end of the term. These grades become a part of the student’s permanent record.
- A change of grade shall not occur as a consequence of the acceptance of additional work or re-examination beyond the specified course requirements.
- A request for a grade change shall be initiated by the student affected or by the instructor within one week (5 business days) following the award of the original grade. If the instructor determines there is a valid basis for the grade change, due to a calculation error, a grade change request will be submitted to the Registrar. If the instructor determines there is not a valid basis for the change and denies the student’s request, the grade will remain as recorded.

The student may formally appeal the grade by submitting a written letter of appeal (email) to the Dean of Instruction or Career and Technical Education Director within ten (10) business days after the award of the original grade. The Dean or Director will respond to the appeal within three (3) business days with the final decision.

Repeated Courses
When a student repeats a course, only the last grade received and credits earned are included in the GPA computation. If a student withdraws (W) while repeating a course, the original grade is included in the GPA computation. Once the degree has been awarded, the student cannot repeat any course to improve his/her GPA.

Classification of Students
UTTC students are classified according to the number of credit hours earned numbered 100 level or above.

- Freshmen: Students who have earned less or equal to 30 credits.
- Sophomores: Students who have earned 31-60 credits.
- Juniors: Students who have earned 61-90 credits.
- Seniors: Students who have earned 91 credits or more.

Satisfactory Progress
To maintain good academic standing, a student must have a minimum UTTC Cumulative and Term GPA of a 2.0. First semester students are considered to be in good academic standing by default until grades are reported at the end of their first semester. Only students in good standing may represent the college at authorized academic, vocational, and athletic events.

Academic Honors
UTTC believes it is important to recognize students who have distinguished themselves with high scholastic achievement. Full-time students with a term GPA of 3.5 to 4.0 will be placed on the President’s List. Full-time students with a term GPA of 3.0 to 3.49 will be placed on the Vice President’s List. These lists are publicized to give recognition to the students and are noted on the student’s transcript.

Academic Probation
A student will be placed on probation (and will remain on probation) at the end of a semester if either the term Grade Point Average (GPA) or the cumulative GPA is below 2.00. When a student is on academic probation, the student must achieve a term and cumulative GPA of at least 2.00 during
the semester to be removed from probation. If these conditions are not met by the end of the semester in which the student is on probation, the student will be academically suspended.

Academic Suspension Appeals Procedure

A student on academic probation whose cumulative grade point average (GPA) remains below the minimum required (2.0 GPA) will be placed on academic suspension for one year. Students who are notified they have been placed on academic suspension may appeal the decision within three (3) business days after grades are due for the semester. Appeals may be considered in cases where there were extreme circumstances outside the student’s control that interfered with successful academic work.

Examples of extreme circumstances that may warrant an exception:

- The cumulative GPA is so low that it was mathematically impossible to meet the required standard, but there was significant progress (the term GPA met the required standard).
- The student was directly involved in a serious personal or family issue during the semester.

How to submit an appeal:

- The student’s appeal must be made in writing and emailed to the Vice President of Academic Affairs (VPAA).
- The written appeal must contain a clear statement about the extreme circumstances outside the student’s control that warrant an exception. The student should submit evidence of the situation.

- The VPAA will review the email and visit with the student’s Academic Advisor(s), instructors, and counselor about attendance, completion of assignments, and how well the student communicated with instructors.
- The appeal must be submitted by the deadline indicated in the suspension letter sent by the Registrar’s Office.

After the appeal is submitted:

- The VPAA will acknowledge receipt of the appeal and respond within three (3) business days.
- Once the decision has been reached, the student will receive a written response from the VPAA. The student should not travel back to campus with the expectation of re-enrolling unless he or she has been notified the appeal has been granted.
- The VPAA will officially notify Financial Aid, Housing and the Registrar of the outcome of the appeal. A copy of the decision notification will be placed in the student’s file in the Registrar’s Office.
- If the appeal is successful, the student’s end-of-term academic standing will be changed from academic suspension to academic probation by appeal for one semester. The student will be expected to raise his or her GPA to the required level during that term, or be suspended.
- A student can only have one successful suspension appeal. If a student is suspended for a second time, the student is eligible to re-apply after a one-year (12 months) period.
- The decision by the VPAA is final. The student will not attend classes any day after the final decision.

Withdrawal from the Institution

A student wishing to withdraw from the college and all classes may do so by meeting with their Advisor or Personal Counselor. A student-initiated withdrawal form will be completed and signed by the advisor and counselor. The counselor will process the withdrawal and submit it to the Registrar’s Office.

College-initiated withdrawals are initiated when a student is unable to meet their payment obligations, lack of academic progress, excessive absences or as a result of violations to the Student Code of Conduct.
If students are unable to meet their payment obligations with UTTC by the Census date, Student Accounts will submit a request to the student’s Personal Counselor to depart the student based on non-payment. Payment obligations are defined as having a bill that exceeds $750 or the ability to pay in full for the self-paying student. The Personal Counselor will complete Official Institutional Withdrawal Form and submit it to the Registrar’s Office at the close of business on Census date for processing. The Personal Counselor will notify the appropriate parties on campus that the student is no longer enrolled at UTTC.

The grades recorded for students who choose to withdraw, or are withdrawn, are the same as with the Add/Drop process. Appeals for college-initiated withdrawals that result from excessive absences or lack of academic progress are submitted to the Vice President of Academic Affairs. Appeals for withdrawals that result from Student Code of Conduct violations are submitted to the Vice President of Campus Services.

**Student Complaint**

The administration, faculty and staff at UTTC do everything they can to make sure services are provided to students in a prompt, courteous, and consistent manner. If a student feels this is not happening, and has tried to resolve the issue with those involved, he or she can file a student complaint. The link to file a complaint can be found by logging into My.UTTC.edu and clicking on the Student Information tab. On the bottom of that page, there is a Student Complaints box. The student will complete the form and hit “submit”. A response will be provided within 3-5 days.

**Continuing Education Units**

UTTC offers Continuing Education Units (CEUs) to document and provide credit for professional development activities. These units are offered through workshops, institutes, and a variety of other training formats. All training for CEUs must be pre-approved through the Registrar's Office.

**Career Services**

UTTC Career Services provides an array of career development resources to assist students in reaching their goals. As a UTTC student, you will be introduced to a multitude of possibilities that will initiate exploration between your chosen major and career options.

In addition to resume building and interview preparation, Career Services at UTTC can assist students in transition to a new career path, introduce valuable internship opportunities, and guide the process of continuing your education after you graduate from UTTC. As an employer, Career Services at UTTC not only can assist your company or organization in finding skilled UTTC talent but also strives to develop and strengthen industry partnerships in combining culture, effort and resources of which ultimately drives innovation and economic growth for our communities.

**UTTC Career Services Purpose:**

UTTC Career Services empowers current students, graduates, and alumni to make informed career planning decisions through a comprehensive analysis in discipline-specific coaching, self-assessment and professional development tools, as well as employment and internship opportunity.

The purpose of UTTC Career Services is to help students define their own life vision and then connect them with the resources that help make their vision a reality.

The UTTC Career Services is located at the southeast end of campus on the upper level of the Jack Barden Center, in the Enrollment Services department.

Please call 701-221-1863 to schedule an appointment with the Career Counselor or visit our website at http://uttc.edu/career-services/ for more information.

Division of Academic Affairs

The Division of Academic Affairs oversees and provides leadership for all academic programs and functions at United Tribes Technical College (UTTC). The Academic Affairs division has the lead responsibility for academic planning and academic budget administration, academic personnel decisions, curricular requirements, degree program development, assessment of student learning, and academic accreditation.

Academic Affairs Division Goals

Goal 1: Develop educational programs that differentiate United Tribes Technical College as a leader in education, leadership development and innovation in student research

Goal 2: Implement best practices for advancing student learning in an environment focused on student success

Goal 3: Establish a scholarly environment for faculty and staff

Attendance Policy & Withdrawal

Class attendance is very important for academic success of all students enrolled at UTTC. Instructors are required to report student attendance into UTTC’s Jenzabar data management system on a daily basis during census period (the first two weeks of fall and spring semesters, and the first week of summer semester) and throughout the academic semester. Students can track and monitor their own attendance, per class, on the Learning Management System (LMS) found at my.uttc.edu.

UTTC recognizes particular circumstances may arise that affect the student’s ability to attend class; therefore, it is important students communicate with their instructors regarding any emergencies that cause them to miss class (i.e. medical, family emergency). Regardless of the circumstances, the student is responsible for obtaining any information, such as assignments, handouts, and any course changes or announcements that he or she may have missed because of the absence. The student may refer to the course assignments in my.uttc.edu, contact another student enrolled in the course, or set up a meeting with the course instructor to get the missing information.

Attendance, completion of assigned readings and assignments, and engagement is the equivalent of participation since the student’s engagement with classmates contribute to everyone’s understanding and achievement. Student grades will be impacted by the frequency and quality of participation in class.

Faculty members are required to report student non-attendance during the Census period at the start of each academic term in compliance with federal regulations pertaining to financial aid.

Instructors will initiate an academic attendance “Early Alert” using the Jenzabar retention tool using the following guidelines:

Early Alert Intervention: Level 1

The student misses one or more of the following:

- The first week of class
- One full calendar week of consecutive classes
- Three (3) sessions in one course
- Two (2) lab sessions in one course
- One (1) block class session (HEO, Welding, Automotive, Culinary, Sustainable Ag)

OR the student has less than 70% overall attendance or less than 70% as a grade in a course.

At this first level of Early Alert intervention, the primary Academic Advisor will convene a meeting with the student. In preparation for the meeting, the Academic Advisor will utilize current early alert data to determine if there are additional attendance and/or satisfactory academic progress concerns in other courses. Issues and factors related to absenteeism will be identified and discussed at this meeting.
with the student. The student will be provided with resources for improving attendance, as well as the consequences for continued absenteeism.

**Early Alert Intervention: Level 2**
The student misses one or more of the following:

- Four (4) or more sessions in one class
- Three (3) or more lab sessions in one class
- Two (2) or more block class sessions (HEO, Welding, Welding, Automotive, Culinary, Sustainable Agriculture)

OR the student has less than 70% overall attendance or less than 70% as a grade in one course.

At this second level of Early Alert intervention, the student will be scheduled for a meeting with the primary Academic Advisor and Personal Counselor to establish an academic contract to identify specific actions that need to be met for the student's academic success. The Academic Advisor will utilize current early alert data when preparing the contract to determine if there are additional attendance and/or satisfactory academic progress concerns in other courses.

This written contract is signed by the student as acknowledgment and understanding of the problem areas and potential steps for improvement. The student will be informed at this meeting that continued absenteeism and poor academic progress will jeopardize the student's academic standing and result in the student being put on probation or being suspended from college.

**Early Alert Intervention: Level 3**
The following circumstances will initiate a college-initiated (involuntary) withdrawal from the institution:

- If a student is registered and has not attended any of his or her classes within the Census period, the first two (2) weeks of the fall or spring semester.
- If a student is registered and has not attended any of his or her classes within the Census period, the first week of the summer semester.
- A student who misses two (2) consecutive weeks of all current courses without any communication with the Academic Advisor or Personal Counselor.

OR the student has less than 70% overall attendance and less than 70% as a grade in all courses.

In the case of a college-initiated withdrawal due to excessive absences and unsatisfactory academic progress, the primary Academic Advisor will consult with the Personal Counselor who will initiate the Official Institutional Withdrawal form, indicating an involuntary withdrawal for the student.

The Personal Counselor is responsible for notifying the student about the withdrawal action, as well as Financial Aid, Registrar's Office, Housing, Safety and Security, Student Accounts, and others as necessary. The student is informed of the right to appeal the withdrawal as part of the notification process.

**Appeal Process**

The student has the right to appeal the withdrawal action within three (3) business days following the date on the Official Institutional Withdrawal Form. Appeals for withdrawals due to excessive absences and lack of academic progress are submitted to the Vice President of Academic Affairs (VPAA).

The appeal must be submitted in writing (email) to the VPAA within three (3) business days. Any information that may support the student's appeal should be included in the email, such as circumstances outside of the student's control. The VPAA will respond to the student within two (2) business days, using the means of contact provided by the student in the letter of appeal.

If the appeal is successful, the VPAA will notify the student, the Academic Advisor, Personal Counselor, Financial Aid, Student Accounts, Housing and Vice President of Campus Services. If the appeal is not
supported, the VPAA will notify the same parties and the Registrar’s Office will record the official institutional withdrawal on the student’s official record.

The student submitting the appeal assumes all responsibility for filing appropriate documentation in a timely manner. The decision by the VPAA is final.

**Late Assignment Deadlines**

UTTC supports and fosters the student’s responsibility for completing and submitting assignments on or before scheduled due dates and times. If an assignment is due, the student should make every effort to submit the assignment on time. Occasionally, a student may experience an unexpected life event that results in the submission of late work. Communication is the key. Instructors are more than willing to work with students in the event of an emergency if the student communicates with them before the date and time the assignment is due to make other arrangements.

Late assignment deadlines will vary among departments but will not exceed more than five (5) business days after which the assignment was initially due. Assignment due dates, late assignment deadlines, and late assignment penalties are outlined in course syllabi. Assignments not submitted by the initial deadline date will be reflected in the course gradebook as a zero (0) until the assignment has been submitted.

**Missed Tests, Exams and Quizzes (Formal Assessments)**

Students may not make up a missed test, exam or quiz without a valid reason for their absence (illness, family emergency). It is the student’s responsibility to contact their instructors before the absence, or within 24 hours after missing the formal assessment. The instructor will review the reason the student missed and determine if the circumstance justifies the student being allowed to take the formal assessment.

Approved make-up assessments must be taken outside of the student’s regular class schedule and during a time and location agreed upon between the student and instructor. Students are not to miss another class in order to make-up an assessment for another course.

If the student fails to show on the date and time of the makeup assessment, the student will not be permitted to reschedule the makeup and the assessment and will earn a 0% grade.

**Participation/Class Engagement**

UTTC prepares students for the workforce by holding high academic expectations for all students. The implementation of participation points requires students to be mentally and physically present and engaged during class sessions. Participation points may be utilized to measure students’ ability to be on time, to refrain from external distractions (cell phone usage, holding side conversations with other students), by providing positive contributions to class discussions, participating in individual or group activities, and being prepared for class. Students should refer to the participation/class engagement section of course syllabi for the instructors’ expectations for participation/class engagement in each course.

**Student Appeals**

The student has the right to appeal a college-initiated withdrawal action within 3 business days following the date on the withdrawal form. The appeal must be presented in writing (email) to the UTTC Vice President of Campus Services. Any information that may support the student’s appeal can be attached to the email. The Vice President of Campus Services will respond to the student within two business days, using the means of contact provided by the student in the letter of appeal. The appealing student assumes all responsibility for filing appropriate documentation in a timely manner. The decision by the VPAA is the final decision regarding the appeal.

**Student Behavior in the Classroom**

UTTC students will conduct themselves in a responsible and respectful manner in accordance with the Student Code of Conduct (SCC) in the classroom, on campus, and in online courses. A student’s behavior that interferes with the learning of their peers will not be tolerated. This behavior includes chronic tardiness, threatening confrontations, intoxication, inappropriate physical contact, lewd or disrespectful language or gestures directed at the instructor or at fellow students, bullying, direct or indirect intimidation, and conversations with other students before, during, or after class. The conversations may be face to face, through email, on the telephone or through the use of text messages.
Faculty members are expected to maintain professional management of classroom activities at all times in accordance with the Faculty and Employee Handbooks. As such, if a student demonstrates behavior that disrupts or interferes with other students, instructors reserve the right to ask the student to leave the classroom, contact Campus Security, request mediation by the Academic Department Chair or a Personal Counselor, or file a formal complaint subject to a student disciplinary hearing. This applies to campus-based and online students. The complete Student Code of Conduct can be found in the UTTC Student Handbook.

**Background Checks**

Students enrolled in UTTC’s Elementary Education are required to submit to a criminal background check prior to admission to the program. Failure of any portion of a program’s required checks may be the basis for barring the student from admission or completion of the program, depending on the findings and based upon the current program requirements.

UTTC’s implementation of background checks for students is primarily in response to various affiliates’/agencies’ requirements for accepting students for field placements and/or student teaching. These affiliates/agencies include, but are not limited to, health facilities, community-based organizations, K-12 schools, or local, state or federal agency requirements. If a clinical affiliate/agency or other organization requires the checks prior to accepting students, the college must comply.

The college will conduct the background check at the student’s expense. UTTC reserves the right to request another background check at any point in a student’s program. Additionally, a drug screen is required for all students who are already accepted in the Elementary Education program can be required to participate in a drug screen or background check at any time while they are in the program. A failed background check or drug screen will result in dismissal from the program.

**NOTE:** If the background check for the Elementary Education teacher candidate reveals a conviction, that record must be submitted to the school district in which the candidate intends to student teach. Based on the nature of the conviction, the College and/or the school district can refuse to have the candidate placed as a student teacher in that school district. As a result, the candidate will not complete the requirements for an Elementary Education bachelor’s degree.

**Student Organizations (Clubs)**

Each degree program offered at UTTC is represented by a Student Organization Club. In addition to the clubs, UTTC sponsors a Student Government organization that represents student government. For more information about Student Government, visit the UTTC website at www.uttc.edu. Clubs are pre-professional student organizations or clubs that provide a unique program of career and leadership development, motivation, and recognition for postsecondary students enrolled in a career and technical education program.

Clubs meet on a monthly basis and consist of elected representatives who govern the organization and a faculty member serving as an advisor. The “faculty” advisor collects minutes from the monthly meetings and summaries of club functions and activities. These minutes and summaries are housed in a folder on the share drive.

**Student Academic Honesty Policy**

Academic dishonesty includes plagiarism; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using course materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering, forging, misrepresenting, or misusing an academic record; or fabricating or falsifying data, research procedures, or data analysis.

**Plagiarism** is representing the words, creative work, or ideas of another person as one’s own without providing proper documentation of source. Examples include, but are not limited to:

- Copying information word for word from a source without using quotation marks and giving proper acknowledgement by way of footnote, endnote, or in-text citation;
- Representing the words, ideas, or data of another person as one’s own without providing proper attribution to the author through quotation, reference, in-text citation, or footnote;
- Producing without proper attribution, any form of work originated by...
another person such as a musical phrase, a proof, a speech, an image, experimental data, laboratory report, graphic design, or computer code;

• Paraphrasing without sufficient acknowledgement, ideas taken from another person that the reader might reasonably mistake as the author’s; and
• Borrowing various words, ideas, phrases, or data from original sources and blending them with one’s own without acknowledging the sources.

It is the responsibility of all students to understand the standards and methods of proper attribution and to clarify with each instructor the standards, expectations, and reference techniques appropriate to the subject area and class requirements, including group work and internet use. Students are encouraged to seek out information about these methods from instructors and other resources (UTTC Librarian) and to apply this information in all submissions of academic work.

**Academic Dishonesty Procedure**

When the faculty member suspects academic dishonesty, the instructor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and document the action taken in the Early Alert System. If it is the student’s first offense for the semester, the student will receive a failing grade (0%) on the assignment. If the student has committed the same offense more than once in the same course, the student will fail the course.

If a student is found to have violated the Student Academic Honesty Policy, the faculty member will report the student’s position in the email to the faulty’s supervisor and submit a grade of “INC” or incomplete until the matter is decided. If the student chooses to appeal the allegation of academic dishonesty, the student will submit a written statement to the Department Chair within three (3) business days of when the grade is recorded. The Dean of Instruction will conduct a fact-finding investigation and attempt to resolve the matter.

If the matter cannot be resolved then mediation will be proposed between the student, the faculty member and the Dean of Instruction. The Dean of Instruction will render a final decision within five (5) business days.

If the student fails a course due to repeated academic dishonesty violations, it will be reported on the student’s permanent academic record in the Registrar’s Office.

**Cell Phone Usage**

In general, cell phones will be limited to silent or vibrate mode during class time and meetings. Instructors reserve the classroom management privilege to restrict cell phone usage as specified on course syllabi and for classroom activities, guest presentation, and during tests. For parental or family emergency situations, students will consult in advance with their instructors about using personal cell phones for accommodating such situations.

**Institutional Review Board**

The Institutional Review Board (IRB) reviews and approves of research conducted on human subjects. IRB approval must be obtained before the data collection begins and specific IRB paperwork must be submitted to the UTTC IRB before research can be approved.

There are four main reasons that UTTC has created an IRB. One, the IRB process ensures that any and all UTTC-associated research does not harm human subjects in any way. This goes in hand with the Native view of taking care of relatives and community. Two, adherence to IRB guidelines helps to ensure the highest quality research at UTTC. Third, federal laws mandate that institutions of higher education that are participating in any type of government-sponsored research have an IRB in place. Finally, all universities and nearly all colleges have IRBs. The UTTC IRB is registered with the U.S. Department of Health and Human Services Office for Human Research Protections (OHRP). The registration number for the United Tribes Technical College IRB #1 is IRB00005063. For more information about the UTTC IRB, please visit the UTTC website.

Technical College
AUTOMOTIVE TECHNOLOGY

Automotive technicians face a challenging future in the automotive field due to the increased complexity of the electronic controlled components. Government sources say the United States will need 32,000 new technicians every year just to keep up with the demand. The qualified automotive technician is assured full-time work and a favorable income.

The Automotive Technology (AUT) program provides theory plus the technical skills needed to enter the automotive repair job market. Upon completion, the graduate can continue a course of study in the field or pursue a career such as: Auto Specialist Line Technician, Service Manager, Shop Foreman, Service Consultant at the Apprentice/Entry Level Position or as an owner of an independent repair facility. Upon completion of the hours of each course, the graduate is qualified to take the Automotive Service Excellence (ASE) certification test, a nationally recognized technician certification. UTTC automotive training facility is equipped with state-of-the-art equipment used in major dealerships and repair facilities.

Students entering the Automotive Technology program should have good math, reading and computer skills to successfully complete the required courses.

The Automotive Technology program, working in conjunction with the National Automotive Technicians Education Foundation, qualifies students to take the nationally Approved Automotive Service Excellence (ASE) certification exams.

Program Outcomes
Graduates of the UTTC Automotive Technology AAS degree and diploma programs will:

1. Utilize automotive software systems
2. Use strategy based diagnostics
3. Safely use proper tools and equipment
4. Apply automotive language

BUSINESS ADMINISTRATION

In a rapidly changing economy, new opportunities arise every day for individuals with specific business knowledge and administrative skills. Top careers available to business administration majors include: accountant, administrative executive, chief executive officer, manager, consultant, director, human resource manager, public relations specialist, and many other rewarding careers. Our business administration degree programs will provide you with the skills needed to be competitive and effective leaders in the business world.

Program Outcomes
Graduates of the UTTC Business Administration AS degree program will:

1. Apply administrative skills to successfully implement business strategy.
2. Demonstrate effective decision making in administrative environments.
3. Model ethical practices necessary to lead in global business capacities.
4. Communicate effectively in various administrative roles and settings.

Graduates of the UTTC Business Administration BS degree program will:

1. Apply leadership skills necessary to administer organizational strategy.
2. Demonstrate supervisory skills in evaluating organizational outcomes.
3. Communicate effectively through verbal and non-verbal technical channels.
4. Model professional values to lead organizational culture and behavior.

For a complete listing of course descriptions, go to page 89.

COMPUTER INFORMATION TECHNOLOGY

Graduates of the Computer Information Technology AAS degree program will be able to work in business and industry with skills in computer programming, software application, computer networks & security and web page development and management. State-of-the-art equipment and computer programs combine with a professional curriculum and educational environment to provide the skills, attitudes, and knowledge essential for effective technical support.

Program Outcomes

Graduates of the UTTC Computer Information Technology AAS degree program will:

1. Apply skills in computer programming.
2. Administer a computer network environment.
3. Exhibit skills of Information Technology professionals.

**CRIMINAL JUSTICE**

The Criminal Justice department offers a Bachelor of Science and Associate of Science degree program of study. The program provides a broad curriculum for students who wish to pursue entry and intermediate level careers in Criminal Justice. Since 2001, the Criminal Justice field has experienced significant expansion and several new careers fields have developed, many requiring Bachelor and Associate Degrees.

Upon completion, our graduates will be prepared for employment as Federal, State or Tribal Law Enforcement Officers, Corrections Officers, Parole and Probation Officers, Transportation Safety Officers, Victim Advocates, United States Customs, Homeland Security, Military Investigative Services and private security agencies. All employment opportunities have pre-employment requirements and many agencies require college degrees, background checks, physical and psychological examinations and licensing examinations.

Students wishing to enroll in this program must be 18 years of age, possess a valid driver’s license from their home state and provide official documentation of a criminal background check. Once a student has been accepted into this program, he/she must be motivated to demonstrate the attitude and behavior connected with the professional career being pursued.

**Program Outcomes**

Graduates of the UTTC Criminal Justice AS degree program will:

1. Describe the foundations of the multiple entities within the criminal justice system.
2. Diagram the stages of the criminal justice process.
3. Identify the components of the U.S. Constitution.
4. Interpret the significance of the Bill of Rights contained in the U.S. Constitution.
5. Apply interagency communication skills.
6. Evaluate ethical issues within the criminal justice system.
7. Assess the effectiveness of offender rehabilitation programs.

Graduates of the UTTC Criminal Justice BS degree program will:

1. Integrate professional conduct expected of a criminal justice practitioner.
2. Utilize criminological theory to determine offender typologies.
3. Execute the technological abilities necessary in the criminal justice profession.
4. Employ communication skills for working with diverse populations.
5. Articulate the effectiveness of the criminal justice system.
6. Evaluate ethical decision making abilities of criminal justice professionals.

CULINARY ARTS AND NUTRITION

The Culinary Arts and Nutrition students gain hands-on experience in food preparation, the use of commercial kitchen equipment and kitchen management. The degree plan includes food science, basic nutrition facts, kitchen math theory, and food safety and sanitation. Graduates are prepared to work with school meal programs, Elder Nutrition Programs, health-care kitchens, casino kitchens or restaurants.

Program Outcomes

Graduates of the UTTC Culinary Arts and Nutrition AAS degree program will:

1. Identify the relationship between cooking skills and nutritional choices.
2. Apply cooking techniques and culinary skills
3. Apply food safety and sanitation principles.
4. Use procedures to manage a foodservice business.

Graduates of the UTTC Culinary Arts and Nutrition certificate program will:

1. Identify the relationship between cooking skills and nutritional choices.
2. Apply cooking techniques and culinary skills
3. Apply food safety and sanitation principles.

ELEMENTARY EDUCATION

The Elementary Education Associate of Science (AS) program curriculum prepares students to enter a profession with a demand at an all-time high. Upon completion, the graduate can expect employment as a paraprofessional in a tribal, public or private school setting. Most all of the courses contain a field experience component. This allows the student to gain first-hand knowledge of the best practices in education from experienced teachers in actual classrooms. The degree is designed to transfer to a university bachelor degree program for those students who wish to continue their education. Transfer degree options include elementary education teachers, special education teachers, school counselors, physical education teachers, coaching, as well as a number of other areas.

Students considering the field of education must pass a background check that is completed upon registration for the program. Any students choosing this program must be free from certain criminal convictions in order to be eligible for employment upon graduation.

The faculty in the elementary education program have graduate degrees in the field of education, a wealth of classroom experience, and teacher licensure for the state of North Dakota. They have a number of credentials as well; online teaching and learning, reading, and are vocational education certified by the State of North Dakota.

Program Outcomes

Graduates of the UTTC Elementary Education AS degree program will:

1. Distinguish characteristics of education theories, effective practices, and foundations.
2. Apply relevant educational technology.
3. Identify classroom and behavioral management strategies.
4. Exhibit dispositions of effective educators.

ELEMENTARY EDUCATION BACHELOR OF SCIENCE

The Elementary Education Bachelor of Science (BS) degree program has been approved by the North Dakota Education Standards and Practices Board and is designed as a teacher licensure program. This means students who are accepted into and complete this program of study, as well as meet the other criteria, are eligible to apply for an Educator’s Professional License through the State of North Dakota.

The conceptual framework of the UTTC Teacher Education program is based on the philosophy that a competent, caring teacher is prepared to teach all children. We believe that teaching from what was traditionally a Native perspective is the best way for all children to learn. A Native perspective begins with recognizing the child in the context of family, community, and culture. Learning is a natural part of human growth, development, and socialization in all cultures. In many cultures, particularly Native American, the learning experiences that constitute education are based in cultural values of relevance, relatedness, respect, and responsibility - referred to in this framework as the “4 Rs”.

Relevance is demonstrated through meaningful and authentic learning experiences tied directly to state and national standards. Candidates learn and experience reflective practice by participating in field placements in the classroom under mentor and instructor guidance. They are provided the opportunity to engage in opportunities that are meaningful and relevant to one’s life and interests.

Relatedness is believing and behaving as if you are a relative to another person or thing. It is demonstrated and reinforced through collaborations with children and families. Respect is a very important traditional Native value.

Respect is demonstrated through student contributions and their respect of others’ contributions. The disposition of respect is demonstrated through courtesy, kindness, and acceptance of individuals and their contributions.

Responsibility is a core value of Native cultures as well as the teaching culture. Candidates are expected to demonstrate accountability for their actions and decisions as they engage in their general education and teacher education curriculum.

The 4Rs are integrated throughout the UTTC Teacher Education unit and program(s) and are placed in the context of a holistic worldview and global interconnectedness. These and other values will prepare teacher candidates, and in turn the children they will teach, to be productive members of society and have a good quality of life.

Program Outcomes

Graduates of the UTTC Elementary Education BS degree program will:

1. Demonstrate content knowledge necessary for effective teaching and learning.
2. Demonstrate skills in teaching methodology that allow for the establishment and maintenance of an environment conducive to the learning of all students.
3. Use technology as a means of transforming teaching and learning, infusing it across the curricula.
4. Promote a deep respect for diversity by planning and implementing lessons that are inclusive of all learners.
5. Encourage reflective practice as a means by which professional educators continually improve the teaching and learning process.
6. Develop effective communication skills so that viable partnerships between colleagues, students, and families can be nurtured.

For a complete listing of course descriptions, go to page 89.

ENVIRONMENTAL SCIENCE AND RESEARCH

The Environmental Science and Research program lays the foundation for understanding natural systems and human effects on those systems. A focus on applying scientific concepts to address today’s environmental questions provides students with the skills to work in a variety of career or move seamlessly into advanced degrees.

Program Outcomes

Graduates of the UTTC Environmental Science & Research AS degree program will:

1. Identify various factors from different disciplines that impact environmental issues.
2. Execute introductory research to address an environmental issue.
3. Employ the scientific communication format to present projects.
4. Articulate the benefits of collaboration and professional networks.

Graduates of the UTTC Environmental Science & Research BS degree program will:

1. Operate independently.
2. Mitigate sources of risks or hazards in the work environment.
3. Exhibit professionalism.
4. Explain the legal structure for environmental regulations.
5. Employ critical thinking.

For a complete listing of course descriptions, go to page 89.

GENERAL STUDIES

Students completing the General Studies Associate of Science (AS) degree will gain broad knowledge and transferable skills in multiple disciplines.

Coursework will meet General Education requirements for most Career and Technical Education (CTE) programs at the certificate and AAS levels. This program with a Native American studies focus is designed to help students, in particularly Native America students, prepare for success and leadership in the global workforce, military service, Tribal government, or in continued higher education.

The Program Outcomes for the General Studies AS degree are referred to as the “Institutional Learner Outcomes”.

A graduate of UTTC will be able to:

1. Exhibit effective oral and written communication. (Communication)
2. Analyze information from diverse sources. (Critical Thinking)
3. Develop solutions to mathematical and scientific problems (Quantitative & Scientific Reasoning)
4. Demonstrate skills necessary for living and working in a global society. (Personal & Social Responsibility)

For a complete listing of course descriptions, go to page 89.

General Studies Associate of Science is available online

General Education Matrix is located on page 44 of the catalog.
The Graphic Design department at United Tribes Technical College is committed to encouraging and helping students to develop skills necessary for employment or self-employment in the Graphic Design field.

The coursework reflects UTTC’s commitment to preserving the traditional arts of Native people while including state-of-the-art technology with a fully functional print shop. Students will receive work experience by working on projects for departments on campus.

If you want to become a Graphic Designer, UTTC is the best place to prepare yourself and move effectively towards achieving your goals. Students are introduced to a variety of traditional and contemporary designs with a heavy emphasis on developing their own individual style and emphasis on developing products.

Throughout the coursework, professional presentation and marketing strategies are explored and emphasized. The goal of the department is to give our graduates a competitive edge when seeking employment or presenting themselves and their work to prospective clients and employers. A wide variety of opportunities await qualified graduates as entry level employees in the field of graphic design as well as the management and operation of a personal business.

Program Outcomes
Graduates of the UTTC Graphic Design AAS degree program will:

1. Present and market an E-Portfolio.
2. Implement safety procedures.
3. Utilize technology in the industry.
4. Illustrate creative design.

For a complete listing of course descriptions, go to page 89.

HEALTH, PHYSICAL EDUCATION & RECREATION

The Health, Physical Education & Recreation Associate of Science (AS) degree prepares students for leadership roles in health, fitness and recreation as well as a minor when completed in conjunction with a bachelor degree. In addition, this degree option prepares students for transfer to four-year colleges and universities for bachelor degrees in physical education, coaching, health education, or recreation.

If you are an individual who enjoys (1) physical activity, (2) fitness, (3) sports activity, (4) working with people (young and old) and who is interested in their personal health and the health of others, then this degree program is for you.

The curriculum combines courses in health, fitness, wellness, and technology, with an introduction to education, physical education and parks and recreation. General education courses include an emphasis in life science, anatomy and physiology, and communication skills, both verbal and written. Students in this program will participate in field placements in school and health settings and with the local parks and recreation facilities.

The AS degree prepares students for entry-level positions in health, fitness and physical education professions. Potential careers for graduates with an AS degree in Health, Physical Education & Recreation include diabetes prevention leaders in tribal programs, athletic trainers, fitness specialists, recreation specialists, and other positions related to wellness initiatives. The employment projections for graduates with this degree is expected to continue to rise with the increased demand for people to work in health and wellness initiative programs focusing on wellness and healthy living and combating obesity.

Program Outcomes

Graduates of the UTTC Health, Physical Education & Recreation AS degree program will:

1. Demonstrate knowledge of the philosophy, history, and scope of the coaching profession.
2. Apply fundamental concepts, principles, and procedures for the planning, development, and design of recreational programs.
3. Apply principles and practices for designing and evaluating programs promoting physical education.
4. Apply academic concepts of the professional discipline to promote healthy lifestyles through physical activity, fitness, wellness, and sports.

For a complete listing of course descriptions, go to page 89.

HEAVY EQUIPMENT OPERATIONS

A one semester training program, the Heavy Equipment Operations certificate program is designed to provide students with the knowledge, skills and competencies to obtain entry-level employment operating heavy equipment.

Training topics include basics of safety (1st aid/CPR, OSHA 10), equipment maintenance, project organization and heavy equipment operations (front end loader, back hoe, loading/unloading, docking) along with a basic math course. Students will also complete a welding fundamentals course.

Program Outcomes

The graduates of the UTTC Heavy Equipment Operations program will:

1. Evaluate job site for safety.
2. Safely operate heavy equipment in accordance to industry standards.
3. Utilize the appropriate heavy equipment.

For a complete listing of course descriptions, go to page 89.

HUMAN AND SOCIAL SERVICES

The Human & Social Services Associate of Science (AS) degree provides generalist education for employment in a wide variety of social service agencies. This degree is designed as a transfer degree for graduates who wish to continue their education by completing a baccalaureate degree in Social Work or a related field.

Human services degrees are for students who want to help others in their day-to-day work. Because its ultimate goal is to meet human needs, whatever they may be, the human services field is ideal for someone who wants their work to truly affect social change within communities.

• **Case management aide:** This job allows you to work with low-income, disabled and elderly clients by providing administrative assistance to a case manager. This is an ideal job for organized people who have strong communication skills and understand the value of advocacy for underserved individuals.

• **Social work assistant:** A career as a social work assistant is another option for someone with an associate degree in human services. This position would likely be a great fit for candidates with strong interpersonal skills who are patient, sympathetic and can be flexible in their job.

• **Community outreach worker:** Community outreach workers coordinate educational, training, youth and health services for the communities in which they work. If you are a social person who has a strong desire to directly improve the community in which you live, working as a community outreach worker could be a great fit for you.

• **Substance abuse counselor technicians:** Substance abuse counselor technicians provide services in both the treatment and prevention of alcohol and drug addiction. If you have compassion and a strong desire to help those who are in crisis and likely underserved, this job could be a great fit for you.

**Program Outcomes**

Graduates of the UTTC Human & Social Services AS degree program will:

1. Describe the nature of human systems.
2. Apply theoretical psychological frameworks to client situations.
3. Apply interventions that match the human services profession.
4. Interact with clients and coworkers with cultural mindfulness.
5. Implement professional code of ethics.

For a complete listing of course descriptions, go to page 89.

PRE-ENGINEERING

UTTC's Pre-Engineering Associate of Science (AS) degree program provides a rigorous and affordable option for students interested in pursuing a career in Engineering. The AS degree is designed to transfer to Engineering bachelors degree programs at institutions such as North Dakota State University and South Dakota School of Mines. Small classes ensure personalized attention and extra tutoring when needed. Interactive modules are a focus of the program and include robotics, ROV submarines, and 3D-printing "Maker" competitions. Students entering the program should be comfortable with mathematics or have a strong desire to learn math concepts in a challenging but supportive atmosphere.

Program Outcomes
Graduates of the UTTC Pre-Engineering AS degree program will:

1. Employ appropriate technology to relevant applications.
2. Integrate mechanics principles to solve engineering problems.

For a complete listing of course descriptions, go to page 89.

SUSTAINABLE AGRICULTURE AND FOOD SYSTEMS

The Sustainable Agriculture and Food Systems Applied Science (AAS) degree program is designed to empower you to be a leader in addressing issues of food sovereignty for your community. Food sovereignty is the right to healthy and culturally appropriate food produced through ecologically sound and sustainable methods. The program includes technical training in food production, student-driven research, and co-creation of community engagement initiatives. Hands-on, experiential, transdisciplinary learning is emphasized through student engagement in the campus gardens and food system where students participate in developing food sovereignty strategies that can be trialed and learned from.

A degree in Sustainable Agriculture and Food Systems will prepare you for a broad range of careers and bachelor's degree programs that have the potential to contribute to community food sovereignty: agricultural production and food system management, rural and urban community services, education and development, as well as careers in agricultural, environmental, and economic policy and analysis. Employers range from non-profit organizations, tribal, state and federal agencies, nature preserves, community organizations, and entrepreneurial endeavors.

Program Outcomes

Graduates of the UTTC Sustainable Agriculture and Food Systems Applied Science AAS degree program will:

1. Demonstrate fundamental skills of intensive-scale vegetable production
2. Execute introductory research to address issues in sustainable agriculture and community food systems
3. Develop and demonstrate skills in creating community engagement initiatives
4. Analyze food system strategies based on social, ecological, economic and human health considerations
5. Exhibit leadership skills in the field of sustainable agriculture and community food systems.

For a complete listing of course descriptions, go to page 89.

WELDING TECHNOLOGY

The Welding Technology department is committed to training students to become the best welders they can be. The field of welding continues to evolve with significant advances in technology. In our state-of-the-art welding shop, students begin by using our Virtual Reality VRTEX 360 Simulators. The VRTEX 360s prepare students to become skilled welders, learning proper body positions, gun and rod angles and positions, travel speeds, and overall welding techniques in an eco-friendly manner. Students apply the knowledge and skills learned on the simulators to an actual state-of-the-art welding shop, using a live welder. In addition, students will apply safe working practices and read welding symbols and blueprints.

Welding has become a dominant force in virtually every aspect of life, and with the continued advances the industry is experiencing, welding will provide endless opportunities for those on the cutting edge. Upon successful completion of the Welding Technology certificate program, students may be eligible to become American Welding Society (AWS) Certified.

Program Outcomes
Graduates of the UTTC Welding Technology certificate program will:

1. Practice industry standard safety procedures.
2. Perform welds to industry standards.
3. Communicate with effective welding terminology.

For a complete listing of course descriptions, go to page 89.

COURSE DESCRIPTIONS

LAG 121 INTRODUCTION TO SUSTAINABLE AGRICULTURE AND FOOD SYSTEMS (3 CREDITS)
A broad interdisciplinary introduction to sustainable agriculture and food systems, with both hands-on learning and classroom discussion. Defining sustainability in the context of agricultural history and evolution, from local to global food systems, with a strong emphasis on concepts of food sovereignty.

AGR 221 SUSTAINABLE COMMUNITY FOOD SYSTEMS (3 CREDITS)
This course will introduce students to both historical and contemporary issues and influences in food systems and how those systems influence our lives. Critical evaluation of and student-led, creative solutions for our own campus-based food systems provides a practical context and application for the course material.

AGR 231 SPRING FARM PRACTICUM (4 CREDITS)
AGR 231 immerses students in a complete growing season on the campus farm. Primarily, students will gain hard technical skills in the production of vegetable crops. Additionally, as students work together to promote the gardens and the produce to the campus community, they develop soft skills in community engagement. Spring Farming Practicum covers the initiation of the farm season, from background understanding to planning to soil prep and planting.

Prerequisite: AGR 121

AGR 232 SUMMER FARM PRACTICUM (4 CREDITS)
AGR 232 immerses students in a complete growing season on the campus farm. Primarily, students will gain hard technical skills in the production of vegetable crops. Additionally, as students work together to promote the gardens and the produce to the campus community, they develop soft skills in community engagement. Summer Farming Practicum covers the continuation of the farm season, including weed and pest control, harvesting, wash/pack, and succession planting.

Prerequisite: AGR 121 and AGR 231

AGR 233 FALL FARM PRACTICUM (4 CREDITS)
Covers second season crops, processing and storage, plot and tool management and maintenance, farm business planning and review, market forecasting.

AGR 297 CAMPUS FARM INTERNSHIP (1 CREDIT)
This internship will provide a paid work experience that encompasses both the hard skills technical food production, and the soft skills of community engagement focused here on the campus of UTTC.
**ACT 200 Elements of Accounting I**  
(3 Credits)
This course includes an overview of the accounting process then covers topics such as computerized accounting procedures, the accounting cycle of a merchandising business, and purchase and sales invoice processes and inventory controls. Also included is an overview of fixed assets, payroll, partnerships and corporations, financial statement analysis, and departmentalized accounting.

**ACT 201 Elements of Accounting II**  
(3 Credits)
The emphasis of this course is on managerial and financial accounting issues. Topics include the reporting of long-term liabilities and investments; the accounting for corporations, partnerships and LLCs; the statement of cash flows; and the use of accounting information for analysis and decision-making.

*Prerequisite: ACT 200*

**ACT 315 Government and Not-for-Profit Accounting**  
(3 Credits)
To develop skills in understanding, preparing, and analyzing financial reports for governmental and not-for-profit organizations. The course will cover basic accounting principles, reporting requirements, and budgeting for these organizations.

*Prerequisite: ACT 201*

**ART 142 Design and Desktop Publishing**  
(3 Credits)
This course introduces the student to beginner functions of Adobe software and equipment in the industry.

**ART 180 Media Arts I**  
(4 Credits)
Media Arts I introduces the concepts and technologies of media arts including the tools and terminologies of the trade. Media is incorporated into promotional efforts of organizations to achieve strategic goals. Students develop skills to create and deliver content through media.

**ART 230 Graphic Design Industry**  
(4 Credits)
This course provides opportunities for students to develop the skills necessary to meet graphic design industry standards.

*Prerequisite: CSC 103, ART 142*

**ART 239 Graphic Design Production**  
(4 Credits)
This course introduces students to various production techniques in the graphic design industry. Skills that are developed include using press signatures, troubleshooting problem files and recognizing graphic output format.

*Prerequisite: CSC 103, ART 142*

**ART 242 Advanced Design and Desktop Publishing**  
(3 Credits)
The students will engage in advanced functions of Adobe graphic software such as importing graphics, exporting files, and demonstrating the use of e-publishing.

*Prerequisite: CSC 103, ART 142*
ART 273 PORTFOLIO PRESENTATION  
(3 CREDITS)  
Students will prepare a portfolio and resume that demonstrates previously acquired art, design,  
production, and software skills for use in transfer application and employment search. Topics  
covered include: self-assessment; portfolio design and creation; taking slides and digital images;  
resume design; digital image conversion; job search; and transfer to other college curriculums.  
Prerequisite: CSC 103, ART 142

ART 297 GRAPHIC DESIGN INTERNSHIP  
(4 CREDITS)  
This Internship enables students to integrate classroom learning with practical experience in the  
graphic design industry.  
Prerequisite: CSC 103, ART 142

ASC 082 EFFECTIVE READING  
(2 CREDITS)  
This course is designed to teach reading skills necessary for success in comprehending and  
studying college-level courses. Emphasis is on vocabulary, literal and inferential comprehension,  
analysis, and efficiency. Credit earned does not count towards any degree, nor does it transfer.

ASC 085 EFFECTIVE WRITING  
(2 CREDITS)  
This course is a fundamental English course designed to aid the student in acquiring the basic  
skills needed for college-level writing. Primary emphasis is placed on sentence and paragraph  
development, with additional attention given to grammar, punctuation and vocabulary usage. Credit  
earned does not count towards any degree, nor does it transfer.

ASC 090 PRE-ALGEBRA I  
(2 CREDITS)  
This course improves basic computational skills; addition, subtraction, and multiplication of  
whole numbers, fractions, decimals, and integers. Credit earned does not count towards any  
degree, nor does it transfer.

ASC 091 PRE-ALGEBRA II  
(2 CREDITS)  
This course is designed for students who need a refresher prior to entering the required math  
courses for their degree. Topics include operations with integers and fractions, orders of  
operation, simplification and evaluation of expressions, and evaluation of one and two step  
linear equations. Study skills will be incorporated throughout the course. Credit earned does not  
count towards any degree, nor does it transfer.  
Prerequisite: ASC 090 or placement test

AUT 101 INTRODUCTION TO AUTOMOTIVE SERVICE/SAFETY  
(1 CREDIT)  
This course is an introduction to the automotive service field which covers service procedures, tools  
of the trade, career opportunities, personal and shop safety, and chemicals present in the shop.
**AUT 102 Engine Repair and Service**  
(4 Credits)  
This course covers diagnosis, repair, adjustment, inspection, and basic theory which includes: automotive engines, theory of engine operation, engine operating systems, engine materials and fasteners, intake and exhaust systems, factors affecting engine performance, engine configurations, mounts, and remanufactured engines, cylinder heads, camshafts and valve trains, timing mechanisms engine block construction, pistons, rings, connecting rods, and bearings and alternative fuel and advanced technology vehicles.  
Prerequisite: AUT 101 • This course meets ASE contact hours (120).

**AUT 104 Manual Drive Trains and Axles**  
(4 Credits)  
This course covers automotive manual drive train diagnosis, repair, adjustment, inspection, and basic theory which includes drive train theory, clutches, manual transmissions, and transaxles, front drive axles, drive shafts and universal joints, differential and drive axles, four-wheel-drive systems, and drive train electrical and electronic systems.  
Prerequisite: AUT 101 • This course meets ASE contact hours (100).

**AUT 105 Automotive Brakes**  
(4 Credits)  
This course covers diagnosis, repair, adjustment, inspection, and basic theory of automotive brake systems which covers disc brakes, drum brakes, power boosters, master cylinders, wheel cylinders, valves and hydraulic principals related to automotive brake systems.  
Prerequisite: AUT 101 • This course meets ASE contact hours (105 hours).

**AUT 106 Automotive Electrical Systems**  
(8 Credits)  
This course covers diagnosis, repair, adjustment, inspection, and basic theory of the automotive electrical system which covers starting system, charging system, batteries, basic electrical theories, electrical components, testing equipment, wiring diagrams, and automotive computers.  
Prerequisite: AUT 101 • This course meets ASE contact hours (230 hrs).

**AUT 201 Engine Performance**  
(8 Credits)  
This course covers diagnosis, repair, adjustment, inspection, and basic theory of automotive tune-ups, input sensor diagnosis and service, ignition system service and diagnosis, fuel tank, line and pump service, conventional and computer controlled carburetor diagnosis and service, electronic fuel injection diagnosis and service, idle speed control systems service and diagnosis, exhaust gas recirculation, secondary air injection, and evaporative emission control systems diagnosis and service, positive crankcase ventilation, spark timing control, and intake manifold heat control systems, service and diagnosis, engine diagnosis with infrared analyzer, engine analyzer, and oscilloscope, turbocharger charger and supercharger diagnosis and service.  
Prerequisite: AUT 101, AUT 102, AUT 105, and AUT 106.  
This course meets ASE contact hours (220 hours).

**AUT 202 Steering and Suspension**  
(4 Credits)  
This course covers automotive steering and suspension diagnosis, repair, adjustment, inspection, and basic theory which covers wheel bearings, tires and wheels, shock absorbers and struts, front and rear suspension systems, steering columns, power steering pumps, steering gears, and two and four wheel alignments.  
Prerequisite: AUT 101 • This course meets ASE contact hours (95 hours).
AUT 203 Automatic Transmissions / Transaxles  
(4 Credits)
This course covers diagnosis, repair, adjustment, inspection, basic theory of hydraulics, automatic transmission, transaxles and fluid coupling which covers valve body service, clutch packs, bands, torque converters, planetary gear sets, and hydraulic pumps.

Prerequisite: AUT 101  • This course meets ASE contact hours (120 hours).

AUT 204 Heating and Air Conditioning  
(4 Credits)
This course covers diagnosis, repair, adjustment, inspection, and basic theory of automotive heating and air conditioning systems which covers history and purpose, health and safety, temperature and pressure fundamentals, refrigeration system and components, system testing and servicing, case and duct systems, retrofitting, system controls, and engine cooling and heating systems.

Prerequisite: AUT 101  • This course meets ASE contact hours (90 hours).

BAD 201 Principles of Marketing  
(3 Credits)
This course introduces the contemporary system of buyers and sellers in today's competitive business markets. Marketing mix strategy and resources of people; money, technology, and materials are included as well as the influence of media on today's marketplace.

BAD 202 Principles of Management  
(3 Credits)
This course provides an overview of the latest managerial theories and skills needed to prepare students for contemporary managerial roles in today's organizational environments.

BAD 217 Promotion and Advertising  
(3 Credits)
This is a study of how to increase customer traffic in a retail setting by using both promotion and advertising. This includes a discussion on how to utilize the elements of promotion (advertising, publicity, sales promotion, personal selling) in a coordinated way to meet organizational objectives. An emphasis will be placed on the practical applications of retail concepts.

BAD 251 Personal Finance  
(3 Credits)
This course is an introduction to the fundamentals of personal finance including banking, loans, credit, home ownership, budgeting, tax liability, auto financing, insurance, investments, retirement, and estate planning. An overview of the tribal, state, and federal laws that are applicable to these finance topics will be explored.

BAD 282 Human Resource Management  
(3 Credits)
This course is an overview of human resource management to include topics relating to job analysis, employment, legislation, recruitment, selection, performance appraisal, compensation, training, and labor relations.

BIO 111 Concepts of Biology  
(3 Credits)
Introduction to a wide range of biological topics, from the organism, ecology, and evolution to the cell, molecular biology, and genetics. This course is intended for non-Science majors.

Co-Requisite: LAB 111
BIO 124 **ENVIRONMENTAL SCIENCE**  
*(3 CREDITS)*  
This course is an introduction to the environmental sciences and human impacts on the environment. Emphasis is placed on sustainability in a changing world.

BIO 150 **GENERAL BIOLOGY I**  
*(3 CREDITS)*  
This course will focus on the “Study of Life” at a cellular and physiological level. Basic concepts such as cellular components, cellular physiology, and genetics will be explored.  
*Co-Requisite: LAB 150*

BIO 151 **GENERAL BIOLOGY II**  
*(3 CREDITS)*  
This course focuses on the “Study of Life” at an evolutionary and ecological perspective. Basic concepts such as Darwin’s evolution, conservation, and human impacts and ecological footprint on the planet is explored.  
*Co-Requisite: LAB 151*

BIO 202 **MICROBIOLOGY**  
*(4 CREDITS)*  
This course is the study of general microbiology including bacteriology, virology, parasitology, and mycology. Emphasis is on bacteria: principles of control and culture, metabolic processes, and microbiological techniques.  
*Prerequisite: BIO 150 or BIO 220*

BIO 220 **ANATOMY AND PHYSIOLOGY I**  
*(4 CREDITS)*  
Students will learn various tissues of the body, and the cells that comprise them. Specific focus will be on the following tissue types: integument system, metabolism, skeletal, muscular and nervous system. Students will begin to acquire detailed knowledge of the contribution of these tissues and to the function and anatomy of the human body. This knowledge will provide the basis for understanding levels of organization, support, movement, integration and coordination of the body.

BIO 230 **ECOLOGY**  
*(4 CREDITS)*  
This course is an introduction to the principles of Ecology, including those that govern survival, growth, distribution, and abundance of organisms. A focus is on the interactions and relationships among populations in ecological communities and ecosystems.  
*Prerequisite: BIO 151*

BIO 312 **EVOLUTION**  
*(3 CREDITS)*  
A study of evolution beginning with the origin of life and characterizing biological mechanisms of evolution leading to present biodiversity.  
*Prerequisite: BIO 151*

BIO 315 **INTRODUCTION TO GENETICS**  
*(3 CREDITS)*  
A study of classical genetics, gene structure, and mechanisms of gene expression.  
*Prerequisite: BIO 150*
BIO 316 Advanced Genetics
(3 Credits)
Expansion of classical and molecular concepts of genetics; basic concepts of Mendelian, quantitative, population, molecular, and evolutionary genetics.
Prerequisite: BIO 315

BIO 320 Botany and Plant Systematics
(3 Credits)
This course covers plant biology and systematics with a focus on variation between selected families and orders of vascular plants. Students are introduced to basic plant structure and function as well as the identification, collection, handling and preservation of specimens.
Prerequisite: BIO 151

BIO 325 Introduction to Plant Genetics
(3 Credits)
This course will highlight the aspects of molecular biology and genetics that are unique to plants.
Prerequisite: BIO 315

BIO 336 Mycology
(3 Credits)
This course examines the biology of the true fungi and other groups of organisms traditionally classified with fungi. Emphasis is placed on taxonomy, life history traits, ecology, physiology, and evolutionary biology of the major classes and orders of fungi.
Prerequisite: BIO 315.

BIO 340 Environmental Virology
(3 Credits)
This course will cover the principles of virology as they pertain to the environment. The course will focus on agents of bacterial, plant, and animal diseases, methods of transmission, host-virus/vector-virus relationships, and bioterrorism.
Prerequisite: BIO 150, BIO 151, BIO 202

BIO 402 Animal Behavior
(3 Credits)
Examination of animal social behavior and its application to wild and captive management situations. A focus will be on environmental cues and physiological responses.
Prerequisite: BIO 151

BIO 415 Genomics
(3 Credits)
This course covers the principles of genomic characterization and bioinformatic analysis of eukaryotes.
Prerequisite: BIO 315

BIO 420 Microbial Genetics
(3 Credits)
This course covers concepts in microbiology and genetic engineering of microscopic organisms including: bacteria, archaea, viruses, protozoan and fungi. Curriculum from NSF/HHMI SEA-PHAGES program is utilized.
Prerequisite: BIO 315
BIO 431 WILDLIFE MANAGEMENT AND RESTORATION  
(4 Credits)  
Theory and methods of management of game and non-game populations are studied. Principles of endangered species and invasive species management include case studies of local and regional populations. The focus is on issues of the Northern Plains.  
Prerequisite: BIO 150, BIO 151, BIO 230

BIO 454 HERPETOLOGY  
(3 Credits)  
A study of reptile and amphibian classification, distribution, life history, and morphological, ecological, and behavioral adaptations. Emphasis is placed on species of the Great Plains.  
Prerequisite: BIO 151

BIO 456 ORNITHOLOGY  
(3 Credits)  
A study of bird classification, distribution, life histories, and morphological, ecological, and behavioral adaptations. Emphasis is placed on species of the Great Plains.  
Prerequisite: BIO 151

BIO 458 MAMMALOGY  
(3 Credits)  
This course is a study of mammal classification, distribution, life histories, and morphological, ecological, and behavioral adaptations. Emphasis is placed on species of the Great Plains.  
Prerequisite: BIO 151

BIO 460 ADVANCED CELLULAR BIOLOGY  
(3 Credits)  
This course is an in-depth look into cellular structure and cellular function, organelle physiology, the cell cycle, cellular trafficking, and cellular communication. The focus will be on the internal functioning of eukaryotic and the interaction between cells in a multicellular organism.  
Prerequisite: BIO 150

BIO 470 MICROBIAL ECOLOGY  
(3 Credits)  
This course examines the relationship of the environment to microorganisms within the living (biotic) and nonliving (abiotic) parts of the ecosystems. It provides a survey of the essential ecological roles of microbes in our biosphere and environmental management.  
Prerequisite: BIO 150, BIO 151, BIO 202

BIO 475 CONSERVATION BIOLOGY  
(3 Credits)  
This course provides the theoretical and practical study of conserving biodiversity at the genetic, species, and ecosystem levels. An emphasis is placed on strategies for mitigating multiple, concurrent threats to biodiversity.  
Prerequisite: BIO 151 and BIO 315

BIO 499 SPECIAL TOPICS  
(3 Credits)  
This course covers a variety of topics in instrumental analysis applicable to environmental sample analyses.
BUS 120 Fundamentals of Business
(3 Credits)
This course serves as an introductory overview of business, including management and organization, human resource management, marketing, social media and e-business, information systems, accounting, and finance.

BUS 130 Tribal Government
(3 Credits)
Tribal nations are governed by tribal governments. This course is a study of tribal governments using their history, constitutions, jurisdictions, economic development, intergovernmental relations, and leadership to better understand working within reservation boundaries.

BUS 170 Entrepreneurship
(3 Credits)
Entrepreneurship is an overview of the concepts and principles of business development and management. The use of case study analysis facilitates practical understanding and appreciation of business concepts. In addition, students gain further practical knowledge through the use of the Internet. The course provides a comprehensive perspective of ownership and management of a small business or new venture.

BUS 254 Financial Statement Analysis
(3 Credits)
Financial reporting and analysis develops the basic principles of accounting on which financial reports are based. This course includes financial topics that contribute to the understanding of financial reporting and builds skills in analyzing real financial reports through statements, exhibits, and cases of actual companies. Emphasis is placed on the analysis and interpretation of the end result.

BUS 310 Grant Writing
(3 Credits)
This course addresses proposal writing and grant award management with special emphasis on procurement of funding sources for Native American and/or minority populations.

BUS 315 Business Law
(3 Credits)
This course will provide a broad overview of law that affects business transactions and issues, including an overview of the legal system, torts, contracts, business organizations, employment law, and property.

BUS 318 Business Communication
(3 Credits)
This course develops a comprehensive knowledge of the communication skills needed for success in today’s business environment. Audience analysis, message development and delivery, and communication in diverse teams are included, as well as various forms of technological communication in business.

BUS 353 Corporate Finance
(3 Credits)
This course provides the theoretical foundation required for financial decision-making in the corporate environment. Areas of focus include cash flow analysis, time value of money, project analysis, and evaluation, net present value and other investment criteria.

Prerequisite: ACT 200
**BUS 356 Organizational Behavior**  
(3 Credits)  
This course provides an overview of individual, group, and intergroup behavior in organizations with an emphasis on building managerial skills for behavioral performance in the workplace.

**BUS 366 American Indian Entrepreneurship**  
(3 Credits)  
This course provides a comprehensive perspective of ownership and management of a small business or new venture. The course will include basic entrepreneurship principles and philosophies that have been used in helping Native American, Alaska Native and Native Hawaiian people succeed in entrepreneurial opportunities.

**BUS 401 Tribal Enterprise**  
(3 Credits)  
This course provides a framework for understanding historical and contemporary Tribal business, leadership, governance, and economic development. Students will gain an understanding of the role and responsibilities of a tribal planner or program director who may function as a grant writer, a grant researcher, a project manager, or a development specialist.

**BUS 406 Business Ethics**  
(3 Credits)  
This course addresses business decisions in the context of evaluating moral principles and values. Students engage in analysis of ethical issues, dilemmas, and conflicts that transpire in business.

**BUS 436 Organizational Leadership**  
(3 Credits)  
This course provides a framework that analyzes managerial leadership styles at various levels within an organization. The course examines contemporary perspectives involving leadership ethics, strategic plan leadership, leading organizational change, networking, and crisis leadership.

**BUS 493 Business Research Methods**  
(3 Credits)  
This course cultivates comprehensive knowledge of business research methodology and how various forms of research can be utilized to guide informed decision-making in business.

**BUS 497 Business Internship**  
(3 Credits)  
The purpose of this for-credit internship experience is to integrate knowledge from the Business Administration courses into the job experience. The intern will be required to complete five requirements to complete an internship. These are: the final presentation, a daily log, an analysis of the company or organization for the internship, a skill-based resume, and a performance evaluation from your supervisor. The intern will be mentored by the employer and supervised by the Business Administration Department Chair.  
*Prerequisite: BUS 356*

**BUS 499 Special Topics**  
(3 Credits)  
This course provides for the study of trending topics in business related to technology, management, entrepreneurship, and sustaining viable businesses.
CHM 121 General Chemistry I
(3 Credits)
This course is an introduction to the fundamentals of chemistry including: atoms and molecules, chemical reactions and stoichiometry, solutions, chemical bonding, and periodic table and trends.
  
Prerequisite: MTH 102, Co-Requisite: LAB 121

CHM 122 General Chemistry II
(3 Credits)
This course is an introduction to the fundamentals of chemistry including: solutions, thermodynamics, kinetics, chemical equilibrium, and organic chemistry.

Prerequisite: Math 102, Co-Requisite: LAB 122

CHM 341 Organic Chemistry I
(3 Credits)
Course will emphasize structure and bonding, nomenclature, stereochemistry and functional groups.

Prerequisites: CHM 122, Co-Requisite: Lab 341

CHM 342 Organic Chemistry II
(3 Credits)
Students will study the structure, properties, and chemical reactivity of the basic classes of organic compounds, including: aromatic compounds, alcohols, ethers, aldehydes, ketones, carboxylic acids, and amines. Additionally, students will gain an understanding of the methodology and logic of organic synthesis. Finally, students will also gain an understanding of spectrometric techniques for organic structure determination.

Prerequisites: CHM 341, Co-Requisite: Lab 342

CHM 360 Elements of Biochemistry
(3 Credits)
This course covers the foundations of biochemistry, with a focus on protein structure, function conformation, and dynamics, enzymes, DNA-RNA, structure and flow of genetic information, biological membranes, and metabolism.

Prerequisite: CHM 341

CIS 104 Database Management
(4 Credits)
This course is an application course designed to plan, design, and implement database systems using Microsoft Access software.

CIS 128 Microcomputer Hardware I
(3 Credits)
Students will explore hardware and software components and best practices in maintenance and safety. Participants completing CIS 128 will be prepared to take the industry CompTIA A+ certification.
CIS 129 Microcomputer Hardware II  
(3 Credits)  
Students learn the functionality of software components as well as suggested best practices in maintenance and safety issues. The students, through hands-on activities and labs, learn to assemble and configure a computer, install operating systems and software, and troubleshoot software problems. In addition, this course helps students prepare for the CompTIA A+ certification.  
**Prerequisite:** CIS 128.

CIS 147 Principles of Information Security  
(3 Credits)  
This course introduces computer and network security topics, including cryptography, authentication, VPNs, assessments, audits, and other aspects of enterprise security.  
**Prerequisite:** CIS 165  
Participants completing CIS 147 will be prepared to take the industry CompTIA S+ certification.

CIS 164 Networking Fundamentals I  
(4 Credits)  
This course focuses on Network terminology and protocols, Local Area Networks (LANs), Wide Area Networks (WANs), Open System Interconnection (OSI) models, Cabling, Cabling tools, Routers, Router programming, Ethernet, Internet Protocol (IP) addressing, and Network standards.  
The first of two courses leading to the CompTIA Network+ certification. Participants completing Levels 1 & 2 will be prepared to take the industry certification Network+ exam and become N+ Certified through CompTIA.

CIS 165 Networking Fundamentals II  
(4 Credits)  
This course focuses on Network terminology and protocols, Local Area Networks (LANs), Wide Area Networks (WANs), Open System Interconnection (OSI) models, Cabling, Cabling tools, Routers, Router programming, Ethernet, Internet Protocol (IP) addressing, and Network standards.  
The second of two courses leading to the CompTIA Network+ certification. Participants completing Levels 1 & 2 will be prepared to take the industry certification Network+ exam and become N+ Certified through CompTIA.  
**Prerequisite:** CIS 164

CIS 180 Creating Web Pages I  
(3 Credits)  
This course covers creating basic web sites by manually writing HTML/XHTML and Cascading Style Sheets (CSS) using a text editor. The fundamentals of site layout and design, and the process of uploading completed web sites to a remote server will be covered. Other skills used include critical thinking by solving problems with coding syntax and viewing websites “live” on the World Wide Web.

CIS 212 Microsoft Windows Operating System Client  
(3 Credits)  
The course helps learners to gain the knowledge and skills to install, configure, customize, optimize, and troubleshoot the Microsoft Windows operating system in a stand-alone and network environment.
CIS 215 Implementing Microsoft Windows Server  
(3 Credits)  
This course introduces the Windows Server and the networking technologies it supports. Networking and operating system concepts and the common tasks required to administer and support the Windows operating system in a network environment will be covered.  
Prerequisite: CIS 212

CIS 216 Implementing a Microsoft Network Infrastructure  
(4 Credits)  
This course focuses on configuring, managing, and troubleshooting a network infrastructure that uses the Microsoft Windows Server environment.  
Prerequisite: CIS 215

CIS 260 Fundamentals of Wireless Technology  
(3 Credits)  
This course introduces the fundamentals of Radio Frequency (RF) behavior, basic technologies and operations of wireless LAN topologies, proper implementations and functions of wireless components and the skills needed to install and configure wireless network hardware components.  
Prerequisite: CIS 164

CJU 150 Patrol Procedures  
(3 Credits)  
This course introduces the fundamentals of policing and the personal side of law enforcement, including methods of operations associated with police work and patrol duties.

CJU 201 Introduction to Criminal Justice  
(3 Credits)  
This course provides an examination of the criminal justice system and process, including crime, law-making, prosecution, police, courts, and corrections.

CJU 204 Traffic Law and Enforcement  
(3 Credits)  
This course provides an introduction to traffic control, traffic laws, driver and pedestrian behavior, techniques used to detect violators, and crash reduction strategies. Emphasis is placed on traffic codes, DUI, pursuit procedures, and discretionary police powers.

CJU 211 Introduction to Policing  
(3 Credits)  
This course centers on the role of law enforcement at the Local, State, Tribal and Federal levels within the criminal justice system.

CJU 212 Introduction to Homeland Security  
(3 Credits)  
This course introduces students to current public management policies and issues relevant to the security of the United States. The coordination of federal, state and local government agencies and nonprofit organizations that respond to threats is vital to the security of people, property and our way of life. The course relies upon theories, concepts and case studies to explore the challenges facing organizations that are a part of protecting our homeland security.

CJU 221 Criminal Law  
(3 Credits)  
This course is a study of classification of crimes and evolution of criminal law. Essential elements of a criminal offense are covered along with an in-depth understanding of State, Federal, and Tribal courts.
CJU 225 Weapons and Physical Fitness
(3 Credits)
This course covers the use of firearms commonly utilized by law enforcement agencies and places emphasis on weapons safety, cleaning, and maintenance. Physical fitness training and healthy lifestyle choices are included.

CJU 226 Criminal Investigations
(4 Credits)
This course provides an introduction to criminal investigation procedures including theory of an investigation, conduct at a crime scene, and methods used in the forensic laboratory. Fingerprinting, ballistics, hand writing analysis, and surveillance techniques are covered.

CJU 231 Ethics in Criminal Justice I
(3 Credits)
This course covers the theoretical foundation for solving ethical criminal justice dilemmas. Scenarios of ethical issues arising in state, federal, and tribal legal systems are covered.

CJU 254 Juvenile Justice
(3 Credits)
This course provides an introduction to the juvenile justice system including history, officer contact, the court process, guardianship, dependency and questions of delinquency, measurement and theory.

CJU 270 Corrections
(3 Credits)
This course provides an overview of the history of corrections in criminal justice. Prison operations, overcrowding, and inmate subculture are explored. Correctional officer duties, training, and responsibilities are addressed.

CJU 300 Community Policing in Diverse Cultures
(3 Credits)
This course examines the relationship between law, police, and community in the context of community policing within diverse cultures. The history and development of community policing, community relations, problem solving/problem oriented policing, and issues of organizational change are covered. The effectiveness of community policing strategies are covered.

CJU 310 Media Relations
(3 Credits)
This course is designed to familiarize students with the relationship between media and law enforcement agencies.

CJU 320 Parole and Probation
(3 Credits)
This course explores probation and parole procedures as well as community corrections options. Students will gain an understanding of the importance of the presentence investigation and the duties that parole/probation officers fulfill in conducting those reports.

CJU 330 Criminological Theory
(3 Credits)
This course is an examination of the major theories relied upon to explain criminal behavior. Criminological perspectives from the historical to the contemporary will be evaluated along with applicability to offense categories and offender typologies.
**CJU 346 Forensics/Criminalistics**  
*(3 Credits)*
This course provides a theoretical and practical understanding of how a crime scene is processed, evidence is collected, and tested. Technology is used in crime scene investigation, preservation and testing of evidence. Students learn chain of custody and case law for collecting, handling, and use of evidence in preparation for trial.

**CJU 350 Criminal Evidence and Procedure**  
*(3 Credits)*
This course focuses on the development of evidentiary rules in Federal, State, and Tribal Courts. General admissibility tests, rules of admissibility, and the law governing identification evidence will be covered. Specific emphasis is placed on the application of the rules in preparing for and presenting evidence in court.

**CJU 351 Administration of Criminal Justice**  
*(3 Credits)*
This course examines the basic structures and processes of the main components of the American criminal justice system and the interrelationship between the system components.

**CJU 360 Victims and Victimology**  
*(3 Credits)*
This course provides an in-depth examination of the role of a victim in the criminal justice process. Particular emphasis will be placed on the Victim's Rights Movement and ensuing legislation.

**CJU 370 Court Processing**  
*(3 Credits)*
This course provides an overview of the court system from its inception to present day operations. Key personnel, including the judge, prosecutor, defense attorney, victims, and witnesses and their roles will be covered. Courtroom proceedings, court rulings, and rules of evidence are addressed.

**CJU 410 Constitutional Law**  
*(3 Credits)*
This course provides an in-depth examination of constitutional law as it relates to the criminal justice system with particular emphasis on the Bill of Rights. A historic overview of the creation of the U.S. Constitution, the formation of the American legal system, and the three branches of government are covered.

**CJU 420 Interview Techniques**  
*(3 Credits)*
This course provides students with the skills necessary to ethically interview suspects, witnesses, and victims. Students acquire the skills to obtain reliable information through psychological and physiological methods.

**CJU 431 Ethics in Criminal Justice II**  
*(3 Credits)*
Ethical dilemmas, decisions and conflicts of interest as they occur in law enforcement agencies, correctional institutions, and the court system are examined. Particular emphasis is placed on the concepts of due process, fundamental fairness and the implementation of models for ethical decision making.
CJU 435 White Collar Crime  
(3 Credits)
This course examines crime committed by corporations as well as by individuals in white-collar occupations. The course addresses how such crimes are socially defined, who commits them, who is victimized by them, which social contexts promote them, and how society and the criminal justice system respond to them.

CJU 491 Senior Seminar  
(3 Credits)
Senior Seminar serves as the culmination of acquired knowledge and skills for a criminal justice major. The purpose of the course is to integrate all prior learning as students actively engage professional preparation for employment in the criminal justice system.

CJU 493 Research Methods  
(3 Credits)
This course provides the Criminal Justice student an opportunity to develop skills for conducting professional research. Students become familiar with research terminology, methodology, and ethics.

COM 110 Fundamentals of Public Speaking  
(3 Credits)
This course engages the student in the theory and practice of public speaking with emphasis on content, organization, language, delivery and critical evaluation of messages.

CSC 101 Introduction to Computers  
(3 Credits)
This computer course provides students with a general overview of general hardware and software issues such as terminology and environments.

CSC 103 Intro to Computers Graphics  
(3 Credits)
An introduction to the computer as a graphic design and artist tool. Using Macintosh OS, students learn basic use and application of vector illustration (Adobe Illustrator), raster image (Adobe Photoshop), and scanning software programs to the art and design process. Emphasis is on “hands on” use of the computer, and how the computer can aid the artist’s and designer’s problem solving process through interactive visual alternatives.

CSC 122 Visual Basic  
(3 Credits)
Introduction to programming in the BASIC/Visual BASIC language.

ECO 201 Microeconomics  
(3 Credits)
This introductory course includes discussion of the nature and scope of micro economic analysis, introduction of the market system, including structure, pricing, and resource markets.

ECO 202 Macroeconomics  
(3 Credits)
This introductory course includes discussion of the nature and method of macro economics; demand and supply; economic growth and instability; fiscal policy; and macro theory.
EDU 200 Classroom Management
(2 Credits)

This course will prepare prospective educators to be responsive to the needs of students by providing a classroom environment in which all students can grow and thrive, including those from culturally, linguistically and ability diverse backgrounds. Course participants will experience various approaches and models for classroom discipline and develop their own personal style. They will also explore practical techniques for organizing and arranging classrooms to maximize learning.

EDU 205 Introduction to Exceptional Education
(3 Credits)

Trends and issues concerning exceptional education will be explored and discussed. This course presents an overview of learners with exceptional needs. Emphasis will be on characteristics of various exceptionalities, current issues, and the basic principles of the Individuals with Disabilities Act (IDEA). Consideration of cultural diversity, particularly Native American, will be emphasized in the course content.

EDU 220 Geography for Teachers
(2 Credits)

Geography is concerned with the arrangement and location of phenomena on the face of the earth and with the associations of the phenomena that give character to places. This course introduces students to geographic concepts and methods and to materials fundamental to understanding the earth’s various physical and human landscapes. Consideration of cultural diversity, particularly Native American, will be emphasized in the course content.

EDU 232 Fundamental Elements of Effective Reading Instruction
(3 Credits)

This course is designed to introduce students to current research, theories, practices, and materials involved in the development of language and literacy. The five research-based components of reading instruction currently incorporated in the Reading First Initiative...Phonemic Awareness, Phonics, Fluency, Vocabulary, and Comprehension are identified and closely examined.

EDU 250 Introduction to Education
(3 Credits)

This course is a study of teaching as a profession, including historical, philosophical, and psychological foundations of education. The course explores how children differ, how society and schools respond to children’s differences, and how the social and political contexts of schooling affect children’s education. Students will participate in a field experience with an area school or community organization. Consideration of cultural diversity, particularly Native American, and special needs will be emphasized in the course content.

EDU 288 Technology in Education
(2 Credits)

This course will enable the student to facilitate learning with technology in the classroom setting. By exploring current theories of computer pedagogy, the student will plan, design, review and analyze specific lesson plans using technology in the elementary classroom. The student will locate and evaluate appropriate technology resources to be used in the elementary classroom. The student will become familiar with the federal guidelines for educators using information obtained from the Internet. The students will identify the social, legal, and ethical issues related to implementing technology in elementary education.
EDU 290 MULTICULTURAL EDUCATION  
(3 CREDITS)
This course examines how cultural diversity presents major opportunities and challenges in schools today. It focuses on interpersonal and school-wide relations that maximize resources and empower teachers interacting with students, families and communities from a wide variety of cultural backgrounds. The course will focus on diversity consciousness, communication, teaming, motivation, and behavior management in the context of an increasingly diverse school population. Students will be expected to interact with the “real world” around them and relate concepts from the course to not only their own lives, but to current events in their local, national, and international communities. A module on the Essential Understandings of Montana and South Dakota (Indian Education for All) is included within the context of this course.

EDU 296 FIELD EXPERIENCE FOR ELEMENTARY SCHOOL  
(2 CREDITS)
This course is based on an independent study contracted between the instructor and a student. The class is a capstone course, taken during the final semester of the program, which provides the student with the opportunity to work with individual and small groups of children in elementary school classrooms, learning and implementing classroom management, curriculum, and observation.

EDU 305 CREATING INCLUSIVE CLASSROOMS  
(3 CREDITS)
This course introduces the process of achieving an inclusive classroom. With school reform focusing on increased achievement for all students, special education and the inclusive classroom are taking center stage in school planning. Teacher candidates will learn to modify curriculum, instruction, and assessment to meet the needs of every student; to collaborate when designing and implementing curriculum and instruction for an inclusive classroom; and to develop the affective skills of students in general education classrooms.

EDU 310 TEACHING AND LEARNING: THE STUDENT  
(2 CREDITS)
The primary emphasis of this course is the connection of curriculum, instructional planning, and assessment. Included in the content is the relationship of school and classroom environments with individual learners as the key to developing the “big picture” view of teaching and student learning. The course addresses “relevance”, one of the four “R’s” of the Teacher Education conceptual framework, as candidates learn reflective practice as it applies to fostering student learning.

EDU 312 TEACHING AND LEARNING: THE TEACHER  
(2 CREDITS)
This course prepares the teacher candidate for becoming a reflective practitioner, providing opportunities to acquire both the technical (how to) and the practical (what to) expertise that leads to professional judgment about teaching. Through dialogue rooted in reflection on personal experience, or apprenticeship of observation, the candidate will gain resources and guidance for reflection on issues embedded in what it means to teach based on their own personal experiences. This course addresses “relevance”, one of the four “R’s” of the conceptual framework for the Teacher Education unit philosophy.

EDU 315 INTEGRATED ART, MUSIC & DRAMA CURRICULUM  
(2 CREDITS)
This course is designed to give an overview of current theory and practice of an integrated arts curriculum for elementary classroom teaching. Subject matter will include teaching about and through the fine arts, music and drama. Candidates will explore elements of the arts and incorporate these elements into exercises and lessons appropriate for the elementary classroom.
EDU 325 Language Arts in the Elementary Classroom
(2 Credits)

This is a survey of methods designed to prepare beginning teachers for instruction in language arts (excluding reading). The course content includes topics such as theoretical models of language development, listening, oral language, spelling, handwriting reference skills, and children’s composition. Teacher candidates will also learn about techniques for teaching language arts to mainstreamed exceptional students.

Prerequisite: EDU 232 (Field Experience Requirement)

EDU 330 Teaching Reading in the Elementary Classroom
(3 Credits)

This is a survey course in reading instruction. The course provides a comprehensive treatment of the major topics of reading, including emergent literacy, approaches and materials used to teach beginning reading, word identification, vocabulary, comprehension, and literature-based reading instruction. Teacher candidates also investigate issues in teaching reading to mainstreamed exceptional students.

Prerequisite: EDU 325 (Field Experience Requirement)

EDU 335 Principles of Behavior Assessment and Intervention
(2 Credits)

This course provides teacher candidates with an overview of functional behavior assessment strategies effective with children in PreK-Grade 8 educational settings. The course addresses behaviors typically associated with attention deficit/hyperactivity disorder, Autism Spectrum Disorders, emotional disorders and other related conditions. Candidates will learn and practice strategies for conducting behavioral assessments, response to intervention, and how to promote generalization and maintenance of learned positive behaviors. The course will also emphasize consultation and collaboration with families, school personnel and related services personnel as required by the Individuals with Disabilities Education Improvement Act.

Prerequisite: EDU 200, EDU 205

EDU 338 Family and School Collaborations
(2 Credits)

This course provides an opportunity for teacher candidates to reflect not only on present issues in schools, but the opportunity to review innovative initiatives and models around the country that give a voice to teachers and families on behalf of children. The course will provide teacher candidates an opportunity to design constructive ways to empower families and teachers to be more effective in creating “schools our children deserve”.

EDU 340 Elementary Physical Education Curriculum
(3 Credits)

This is an interdisciplinary course designed to prepare teacher candidates with the philosophy, knowledge, and skills necessary to become competent teachers of elementary physical education, safety, and health education. Strategies included are observation, analysis, and journal writing during early clinical experience. Additionally, this course will broaden the candidate’s understanding of children’s play, health, and physical activity.

EDU 345 Assessment of Learning
(3 Credits)

This course is an investigation into the design, assessment, and evaluation of student performance in the elementary classroom. Teacher candidates are required to know, understand, and use formal and informal assessment strategies to plan, evaluate, and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student. In addition, teacher candidates will develop an understanding of the need to differentiate instruction and acquire appropriate strategies to do so.

Prerequisite: PSY 230
EDU 346 Field Experience I and II
(2 Credits)
This full-semester field experience provides the teacher candidate an opportunity to apply course content in a grade 1-6 classroom and to reflect on the teaching profession as an active participant. A mentor teacher and Teacher Ed. field supervisor provide guidance during this learning experience. The teacher candidate will be challenged to develop ways of articulating subject area knowledge, to collaborate with colleagues and parents, and to apply understanding of students as individuals with social, emotional, physical, and intellectual needs. The teacher candidate will be expected to observe and engage in daily classroom activities and may be called upon to work with individuals or in small group settings during this field experience. (Two consecutive semester sessions of 1 credit each are required.)
Prerequisite: EDU 296, concurrent with Teacher Ed. methods courses

EDU 350 Social Studies in the Elementary Classroom
(2 Credits)
The purpose of this course is to introduce future teachers to elementary social studies curriculum and instructional methods. Candidates will review the social studies curriculum as it relates to learning and development, differences in learning styles, critical thinking, problem solving and performance skills, active learning and motivation, inquiry, collaboration and supportive classroom interaction, instructional planning, assessment, reflection and professional growth, and professional leadership (based on pedagogical standards identified by the National Council for the Social Studies).

EDU 355 Mathematics in the Elementary Classroom
(2 Credits)
This course prepares teacher candidates to teach mathematics in elementary schools. The focus of this course will be on understanding mathematical concepts and developing appropriate lessons and strategies for teaching mathematical concepts to all children. An emphasis is placed on meeting the needs of all learners in culturally diverse educational environments. Field experience is required.
Prerequisite: MTH 277, MTH 377 (Field Experience Requirement)

EDU 360 Integrated Science and Technology Curriculum
(3 Credits)
This course prepares elementary education teacher candidates to teach science integrated with technology. This course has four components: earth science, space science, physical science, and life science. The focus of this course is on increasing content knowledge and on planning and implementing developmentally appropriate, integrated science units. This course includes inquiry-based and computer laboratory experiences.
(Field Experience Requirement)

EDU 396 Field Experience III
(1 Credit)
This full-semester “apprenticeship” field experience provides the teacher candidate continued opportunity to apply course content in a grade 1-6 classroom and to reflect on the teaching profession as an active participant. A mentor teacher and Teacher Ed. field supervisor provide guidance during this learning experience. The teacher candidate will be challenged to develop ways of articulating subject area knowledge, to collaborate with colleagues and parents, and to apply understanding of students as individuals with social, emotional, physical, and intellectual needs. The teacher candidate will be expected to engage in daily classroom activities and will work with students in small group and large group settings during this Level II field experience. (This lab is completed during the semester immediately preceding student teaching.)
Pre-requisite: EDU 346, concurrent with Teacher Ed. methods courses
EDU 498 Elementary Education Student Teaching
(12 Credits)
Student teaching is the opportunity for teacher candidates to participate in an experiential learning setting where they can utilize the skills, strategies, and knowledge they learned during their teacher preparation program. With a theme of Competence and Caring as the underlying focus of the experience, students enrolled in this course will experience firsthand the many facets of teaching in an elementary school setting. Successful completion of this field placement is the culminating activity leading to licensure as a professional educator.

(Open only to students approved for student teaching).

ENG 105 Technical Communications
(3 Credits)
This course concentrates on professional communications, resource searches, and speech for students in two-year technical programs. Includes informal report writing, technical communication, job preparation, and oral presentation.

ENG 110 Composition I
(3 Credits)
This course is the study and practice of the communication process emphasizing written material, including writing as a process, writing for problem solving and self-awareness, research writing and information gathering. The course includes reading and interpreting themes associated with Native American writing as well as writers representing cultural diversity. The course is based on the principle that good writing is at the core of academic and professional life.

Prerequisite: ASC 085 or placement test

ENG 120 Composition II
(3 Credits)
Continued practice of college-level writing process and strategies, building on skills learned in ENG 110. This course refines critical reading, writing, thinking, and research skills. Students will practice summary and analysis of texts, as well as synthesizing information from primary and secondary sources. Writing assignments will emphasize logical argument, persuasion, and collaboration. Major assignments will require proper crediting of source material and research.

Prerequisite: ENG 110

ENG 238 Children’s Literature
(3 Credits)
This course will serve as an introduction to children’s and adolescent literature, with an emphasis on the integration of literature across the curriculum and on literature response activities. Learners will read a wide range of books and become familiar with a variety of genres, including traditional Native American stories. They will use evaluation criteria to determine the quality of various books and will practice identifying literary elements and devices authors use.

ENG 290 English for Elementary Teachers
(3 Credits)
This course is designed as a “skills building” course in the Teacher Education program. The course will cover parts of speech, word use, sentence construction, spelling, capitalization, punctuation and principles of effective writing. Not only will this class enhance speaking and writing skills, it will also prepare the student for the Praxis: PPST, the exam required for North Dakota teacher licensure.

Prerequisite: ENG 110
ENR 115 Introduction to Engineering w/CAD  
(4 Credits)
This course is an introduction to the engineering profession. It provides an overview of various engineering disciplines including environmental engineering, and concepts of relevant coursework in mathematics, physics, science, and issues of sustainability engineering. In addition, students will be introduced to Computer Aided Design (CAD) software.
Prerequisite: MTH 102

ENR 201 Statics  
(3 Credits)
This course studies the effects of external forces acting on stationary rigid bodies in equilibrium. Vector algebra is used to study two and three-dimensional systems of forces.
Prerequisite: MTH 165

ENR 202 Dynamics  
(3 Credits)
This course examines kinematics and dynamics of particles, solid bodies and structures. Topics will cover kinetics and kinematics of two and three-dimensional mechanisms. Emphasis will include free body diagrams, vector analysis methods, and various coordinate systems.
Prerequisite: MTH 165, MTH 166

ESR 191 Environmental Seminar I  
(1 Credit)
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars that will form the basis of class analysis and discussion.

ESR 193 Environmental Research I  
(2 Credits)
The first course of the research series introduces students to the process of developing a research question and provides the scientific background for the research project through an extensive review of published literature.

ESR 291 Environmental Seminar II  
(1 Credit)
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars that will form the basis of class analysis and discussion.

ESR 293 Environmental Research II  
(2 Credits)
The second course of the research series identifies the scientific methodologies for gathering data to address a research question and focuses on sampling, recording, and managing data.

ESR 391 Senior Seminar I  
(1 Credits)
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars which will form the basis of class analysis and discussion.

ESR 393 Senior Research I  
(2 Credits)
The first course of the research series introduces students to the process of developing a research question and provides the scientific background for the research project through an extensive review of published literature.
ESR 491 Senior Seminar II  
(1 Credit)  
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars which will form the basis of class analysis and discussion.

ESR 493 Senior Research II  
(2 Credits)  
This second course of the research series identifies the scientific methodologies for gathering data to address a research question and focuses on sampling, recording, and managing data.

F

FND 106 First Year Experience and Healthy Living  
(2 Credits)  
This course is designed to promote a successful college experience and a healthy lifestyle. Emphasis is placed on realistic, practical guidance ranging from study skills to personal health, from test taking to managing time and money, and from self-awareness to career exploration. Course participants will have the opportunity to engage in a balance of classroom activities, guest speakers, and physical activities, integrated with Native American culture.

G

GEO 105 Physical Geology  
(3 Credits)  
This course covers various topics relating to the study of the inorganic evolution of the Earth. Subjects relating to the natural processes forming the Earth’s minerals, rocks, and internal composition are covered.

GEO 134 Introduction to Climate Change  
(3 Credits)  
This course in an introduction to the science and evidence for climate change.

GIS 105 Fundamentals to GIS  
(3 Credits)  
This course is an overview of Geographic Information Systems (GIS) utilizing ESRI’s ArcGIS suite of software using a hands-on approach.  
Prerequisite: CSC 101

GPE 101 First Aid and CPR  
(1 Credit)  
The course covers first aid and cardiopulmonary resuscitation training to give individuals the knowledge and skills necessary to prevent, recognize, and provide basic care for injuries and sudden illnesses until advanced medical personnel arrive and take over.

GPE 102 Introduction to Fitness  
(1 Credit)  
This course introduces techniques on developing fitness levels. The students learn the health factors associated with fitness and wellness which relate to their families and community.
GPE 104 OSHA 10 Safety
(1 Credit)
This course is a basic overview of the requirements of the Occupational Health and Safety Administration as related to working in any industry. It also covers the requirements for treating an ill or injured person.

HEO 101 Basic Principles of HEO
(6 Credits)
This course will provide students with fundamentals and basic operational skills of various types of heavy equipment machinery. Students will practice skills on simulators and on heavy equipment in the field.

HEO 124 Basic Safety for Heavy Equipment Operation
(3 Credits)
This course prepares students to correlate the steps and procedures necessary for a safe, productive, and responsible career in the HEO Industry.

HEO 130 Project Layout
(3 Credits)
This course explores a variety of industry situations involving heavy equipment operations. Students plan and evaluate heavy equipment situations, and practice a variety of applications including wind rows and earth moving techniques.

HEO 150 Heavy Equipment Operations
(3 Credits)
This course is designed to give students the knowledge, skills, and practical experience of heavy equipment operations.

HIS 103 U.S. History to 1877
(3 Credits)
This course offers students an introduction to the history of the United States from before Native American contact with Europeans through the end of Reconstruction in 1877. This class will follow the development of America as a nation, advances in technology, and the varied means by which Americans met social and economic challenges. Students will be introduced to key events, people, and trends fundamental to any course in American History. The course includes the impact of historical events on Native American people.

HIS 104 U.S. History since 1877
(3 Credits)
This course is a survey of American History covering political, social, economic, and cultural issues from Industrialization to the present. The course includes the impact of historical events on Native American people.

HPR 200 Introduction to Parks and Recreation
(3 Credits)
This course provides an introduction to the recreation, park, and leisure profession. Areas of emphasis within the course include the history of recreation, parks, and leisure services; orientation to the variety of services, settings, populations, and organizations including tribal, commercial, and/or governmental; and an overview of potential career opportunities within the recreation field. A field placement is required for this course.
HPR 230 Introduction to Coaching  
(3 Credits)
Coaching in today's diverse society is far more complicated than coaching was fifty years ago. Successful coaches must take into account many factors including their own biases to mold a diverse group of athletes into a team. Coaches can expect their athletes to come from diverse experiences and backgrounds. To be successful as coaches, they must take into consideration age, gender, size, culture, family makeup, and many other issues. Coaches as teachers will need to use deeper learning and understanding of today's student population to mold successful athletes.

HPR 240 Introduction to Physical Education  
(3 Credits)
This course provides an introduction to physical education and recreation professions. Areas of emphasis include a basic understanding of opportunities in these professions, the philosophy of physical education and recreation and the history of the field of physical education and recreation in tribal and urban communities. The role of physical education and recreation professions within community wellness initiatives will also be investigated. Course participants will have the opportunity to learn about and engage in traditional Native American forms of physical education and recreation. A field placement is required for the course.

HPR 242 Principles of Sport Psychology  
(3 Credits)
This course will cover various psychological principles associated with sports. Discussions will consist of which psychological variables can hinder or enhance athletic performance. Class content will also illustrate numerous psychological techniques which can enhance sport performance.
Prerequisites: HPR 230 & HPR 240

HPR 297 Park & Rec Internship  
(1 Credit)
Students are placed as interns in a community-based park or recreation facility for this field based course. The students receive supervised training in professional development under the supervision of an on-site mentor. In the seminar, students will explore values, roles and responsibilities, and ethical obligations of the recreation and physical education profession.
Prerequisites: HPR 242

HSS 255 Social Work in Modern Society  
(3 Credits)
This course is designed to provide an introduction to the profession of social work with opportunities to learn about social roles and practice settings.

HSS 256 Development of Social Welfare  
(3 Credits)
This course covers the history, value, political and economic conditions which influence the development and provision of social welfare services.

HSS 260 Alcohol and Drug Use in American Society  
(3 Credits)
This course is designed to introduce the student to the social reality of drug use and drug users. Course participants will study the historical significance and social construction of drug use, users, abuse and addiction.
Prerequisite: HSS 255
HSS 272 Theory & Practice of Counseling and Psychotherapy  
(3 Credits)
This course provides an overview of the theoretical models and treatment methods common in 
the counseling profession. Additionally, it provides the student with the opportunity to identify 
specific treatment strategies for various mental disorders.  
Prerequisite: HSS 255 & PSY 111

HSS 290 Culture and Mental Health  
(3 Credits)
This course explores the role of culture in the definition and maintenance of mental health and 
"mental illness." The perspective of various cultures from around the world regarding mental 
health and treatment of mental illness will be explored.  
Prerequisite: HSS 255

HSS 297 Human & Social Services Internship  
(3 Credits)
Students are placed as interns in a community-based human or social services agency. The 
students receive supervised training in professional development under the supervision of an 
on-site mentor. In the seminar, students will explore values, roles and responsibilities, and legal 
and ethical obligations of the social work profession.  
Prerequisite or Co-Requisite: HSS 272

HUM 101 Introduction to Humanities  
(3 Credits)
This course examines how human beings express themselves through the arts, music, literature 
and other humanities disciplines such as history and philosophy, employs a world and historical 
view and emphasizes the diversity and commonality in human culture.

HUM 106 Readings in Native American Literature  
(3 Credits)
Learners read and interpret a variety of texts by Native American writers and Native American 
culture and history. The selections include fiction and nonfiction, autobiography, poetry, short 
stories, essays, and one complete novel.

HUM 113 Drawing I  
(3 Credits)
This course introduces basic drawing skills and techniques through traditional approaches to 
line, form, composition, and perspective.

INT 297 Summer Internship  
(3 Credits)
The Summer Internship course is a structured work experience during which students will gain 
practical experience related to their program of study and career goals. Students work with 
the internship supervisor to develop specific goals and a plan to achieve the required course 
objectives. The internship includes experiences related to industry-specific skills as well as soft 
skills needed in the workplace, such as problem-solving, work ethic, and leadership. The student 
will have weekly class discussion with the designated UTTC internship supervisor/facilitator. Students will complete 24 hours per week for 7 weeks in their 3 credit internship placement. The course culminates with a performance evaluations by the employer and the internship supervisor.  
Prerequisite: Students must have completed a minimum of two full-time semesters at UTTC, 
or have the transfer equivalent, to register for this course.
LAB 104 GRAPHIC DESIGN LAB  
(4 CREDITS) (1 CREDIT PER SEMESTER 4 TOTAL CREDITS)  
This course provides an opportunity for students to work in a lab with the benefit of immediate 
instructor feedback. Students will spend a total of 60 hours in the lab setting.

LAB 105 PHYSICAL SCIENCE BY INQUIRY LAB  
(1 CREDIT)  
This course provides hands-on activities discussing properties of matter, light and color, electric 
circuits, kinematics, astronomy, and basic laboratory procedures. This course is intended for 
non-science majors.  
Co-Requisite PHY 105

LAB 111 CONCEPTS OF BIOLOGY LAB  
(1 CREDIT)  
One two-hour lab session per week. Labs completed will follow topics covered in the lecture 
portion of the class.  
Co-Requisite: BIO 111

LAB 121 GENERAL CHEMISTRY I LAB  
(1 CREDIT)  
This course provides hands-on experience with the fundamentals of Chemistry including: atoms 
and molecules, chemical reactions and stoichiometry, solutions, chemical bonding, and periodic 
table and trends.  
Prerequisite: MTH 102, Co-Requisite: CHM 121

LAB 122 GENERAL CHEMISTRY II LAB  
(1 CREDIT)  
This course is a hands-on experience in the fundamentals of chemistry including solutions, 
thermodynamics, kinetics, chemical equilibrium, and organic chemistry.  
Prerequisite: MTH 102, Co-Requisite: CHM 122

LAB 150 GENERAL BIOLOGY I LAB  
(1 CREDIT)  
This course is a laboratory section associated with BIO 150: General Biology I and will cover the 
“Study of Life” at a cellular and physiological level. The lab will use hands on demonstrations 
and experiments to visualize general biological concepts.  
Co-Requisite: BIO 150

LAB 151 GENERAL BIOLOGY II LAB  
(1 CREDIT)  
The lab will use hands on demonstrations and experiments to visualize general biological 
concepts covered in the lecture.  
Co-Requisite: BIO 151

LAB 201 EARTH SCIENCE LAB  
(1 CREDIT)  
This course is a laboratory section associated with SCI 201 Earth Sciences: geology, meteorology, 
oceanography, and astronomy.  
Co-Requisite: SCI 201
LAB 341 ORGANIC CHEMISTRY I LAB  
(1 CREDIT)
This lab supports Organic Chemistry, CHM 341, by emphasizing the nomenclature, structure, reactivity, methods of preparation, chemical behavior, and reaction mechanisms of carbon compounds together with fundamental principles and theories of organic spectroscopy. The experiments will consist of carbon-based compounds including proteins, medicines, artificial flavorings, and polymers. Prerequisites: Successful completion of UTTC Environmental Science and Research AS degree and acceptance into Bachelor program or recommendation of advisor.

Co-Requisite: CHM 341

LAB 342 ORGANIC CHEMISTRY II LAB  
(1 CREDIT)
This lab supports Organic Chemistry, CHM 342, by emphasizing Structures and reactivity, named reactions, carbon-carbon bond forming reactions, aromatic and heterocyclic chemistry, biomolecules and polymers, and multi-step synthesis.

Co-Requisite: CHM 342

MTH 101 INTRODUCTION TO ALGEBRA  
(3 CREDITS)
This course is an introductory beginning level algebra course. Topics covered include fundamental operations, linear graphing and exponents. This class does not meet transfer requirements for math.

Prerequisite: ASC 091 or placement test

MTH 102 INTERMEDIATE ALGEBRA  
(3 CREDITS)
Properties of the real number system, factoring, linear, exponential and quadratic equations, functions, polynomial and rational expressions, systems of equations, exponents and radicals.

Prerequisite: MTH 101 or placement test

MTH 103 COLLEGE ALGEBRA  
(4 CREDITS)
This course is designed to introduce the learner to critical thinking and problem solving skills in algebraic concepts, relations and functions, equations and inequalities, complex numbers; polynomial, rational, exponential and logarithmic functions and systems of equations.

Prerequisite: MTH 102 or placement test

MTH 105 TRIGONOMETRY  
(3 CREDITS)
The study of trigonometry focuses on angle measure, trigonometric and inverse trigonometric functions, trigonometric identities and equations, parametric and polar coordinates, and general applications

Prerequisite: MTH 103
MTH 106 Career Math  
(3 Credits)  
This course covers material designed for career technical students who need to study particular mathematical topics. Topics may include measurement, algebra, geometry, trigonometry, graphs, and/or finance. These are presented on an introductory level and the emphasis is on applications. This class does not meet transfer requirements for math.

MTH 165 Calculus I  
(4 Credits)  
This course introduces the learner to basic concepts of calculus, including limits, derivatives, and integrals. Problem analysis involving rates of change and optimization are emphasized in this course.  
Prerequisite: MTH 103

MTH 166 Calculus II  
(4 Credits)  
This course teaches students techniques of integration, polar and parametric equations, sequences and series, and power series and their applications.  
Prerequisite: MTH 165

MTH 210 Elementary Statistics  
(3 Credits)  
Elementary Statistics is an introduction to statistical methods of gathering, presenting and analyzing data. Topics include probability and probability distributions, confidence intervals, hypothesis testing, and linear regression and correlation.  
Prerequisite: MTH 102

MTH 265 Calculus III  
(4 Credits)  
Student will learn multivariable and vector calculus including partial derivatives, multiple integration and its applications, line and surface integrals, Green’s Theorem, and Stoke’s Theorem.  
Prerequisite: MTH 166

MTH 277 Math for Elementary Teachers I  
(3 Credits)  
Participants in this course will develop a deep understanding of mathematical concepts, procedures, and skills that are essential to being able to teach children mathematics in the elementary grades. Current trends in mathematics are emphasized, with particular attention to documents created by the National Council of Teachers of Mathematics.

MTH 342 Environmental Research Statistics  
(3 Credits)  
This course is an overview of statistical techniques used to analyze environmental science research data. The focus is on confidence intervals, t-tests, ANOVA, regression analysis, nonparametric tests, and design of experiments.  
Prerequisite: MTH 210
MTH 377 Math for Elementary Teachers II  
(3 Credits)
This course utilizes a problem-solving approach with topics significant to grades 1-8 standards-based education. This course includes: properties of geometric shapes, measurement, triangle congruence and similarity, geometric constructions, Cartesian coordinates, symmetry, and selected topics from probability and statistics.
Prerequisite: MTH 277

NAS 112 Tribal Arts I  
(3 Credits)
This course introduces basic skills and techniques in Tribal Art forms. The cultural history of Tribal Art and marketing skills is covered.

NAS 190 Lakota History & Culture  
(3 Credits)
A general history of the Northern Plains Indians (particularly Lakota) from prehistoric times to the present. Participants will examine the cultural and historical changes, experienced by contact and influences of tribes from other regions and non-Indians.

NAS 212 Tribal Arts II  
(2 Credits)
This course provides advanced application techniques in the study and creation of Tribal Arts.
Prerequisite: NAS 112

NUT 100 Introduction to Nutrition and Foodservice  
(2 Credits)
This course is an introductory overview of careers relating to the nutrition and/or foodservice industry. Specific issues such as customer service, hospitality, self-confidence, cultural issues relating to jobs, and basic life skills necessary for successful employment and business ownership are addressed. Students develop their individual degree plan and start a career portfolio during this course.

NUT 101 Culinary Calculations  
(3 Credits)
Food production and money operations are reviewed in this course. The learner is exposed to a variety of training experiences, which require math skills for performing duties in food service operations.
Prerequisite: MTH 101

NUT 105 Managing Food Protection  
(3 Credits)
The course focuses on basic food safety, sanitation procedures, causes of foodborne illness, establishment of standard operating procedures and prevention of contamination leading to a better trained workforce. The course concludes with students completing the National Restaurant Association’s ServSafe® exam.
NUT 200 Food Science and Cooking Skills
(4 Credits)
This course covers basic cooking skills, food preservation, and the chemical and physical changes that occur in foods. Traditional plants and foods relevant to Native people are identified and researched.
Prerequisite: NUT 105

NUT 210 Quantity Foods
(5 Credits)
This course provides hands-on experience preparing nutritious meals for up to 50 people. Quantity food preparation will focus on menu planning, food procurement, staff management, marketing skills, and clean up techniques. Students gain experience managing a budget, following a time line, working as a team member, and assessing for quality taste and appearance of meals served.
Prerequisite: NUT 105, NUT 200, NUT 220, NUT 240, NUT 251

NUT 220 Culinary Fundamentals
(4 Credits)
The learner is introduced to culinary principles and terminology, standard kitchen procedures and hands-on experience in proper knife skills. The preparation of stocks, sauces, vegetables, starches, and proteins are introduced.
Prerequisite: NUT 105, NUT 200

NUT 221 Culinary Baking
(4 Credits)
This course provides a solid theoretical and practical foundation in baking practices. It introduces the selection of ingredients, proper mixing and baking techniques, assembly, presentation of yeast and quick breads, pastries, cake, cookies, desserts and candy.
Prerequisite: NUT 105, NUT 200

NUT 240 Fundamentals of Nutrition
(3 Credits)
Basic nutrition facts presented in light of current scientific studies and philosophy. Students review nutritional guidelines, food labeling regulations, and eating patterns. Statistics and nutrition-related health disparities for Native American people will be addressed.

NUT 245 Menu Planning
(3 Credits)
This course focuses on the fundamentals of menu planning based on a self-selected food service operation within a community. The extended menu planning process will be used as students consider food options for various stages of life showing how life-long eating habits influence prevention, development, and/or treatment of disease. Basic nutrition education is addressed.
Prerequisite: NUT 240

NUT 251 Managing Foodservice Operations
(4 Credits)
This course introduces basic foodservice management principles for noncommercial and commercial foodservice operations.

NUT 293 Culinary Special Topics
(2 Credits)
The course focuses on special topics in the culinary arts field, building on concepts learned in pre-requisite culinary courses.
Prerequisite: NUT 105, NUT 200 & NUT 220
NUT 295 Culinary Explorations
(2 Credits)
Students get an opportunity to apply knowledge and skills gained on a variety of topics, building on concepts learned in pre-requisite culinary courses.
Prerequisite: NUT 105, NUT 200, NUT 220

NUT 297 Foodservice Internship
(3 Credits)
This practicum provides students practical hands-on experience in the food service field. Students gain experience in the areas of customer service, menu planning, food preparation, personnel management, sanitation, and financial operations in food service facilities, either on or off reservation communities.
Prerequisite: NUT 105, NUT 200, NUT 220, NUT 240, NUT 251

Phi 100 Critical Thinking
(3 Credits)
Critical thinking is the practice of effective thinking, both logical and evaluative. It is the process by which we develop and support our beliefs, and evaluate the strength of arguments made by others in real-life situations. This course will focus on applying strategies for understanding current issues, belief systems, and ethical positions. Students will analyze media, the current political environment, and their own beliefs and moral inclinations. The primary objectives of this course are to impart a functional ability to reason well, to improve analytical skills and instincts and to employ methods of building strong arguments for reasoned decision-making.

Phi 210 Ethics
(3 Credits)
This course is an introduction to the problems of moral choice, the meaning of value, and the process of making a value judgment. Application of the ethical theory to moral issues and the role action versus theorizing is discussed.

Phy 105 Physical Science by Inquiry
(3 Credits)
This course is an in-depth inquiry based exploration of basic principles of Physical Science and scientific methods that are often taught in elementary school. The focus will be on properties of matter, light and color, electric circuits, kinematics, and astronomy. This course is intended for non-science majors.
Prerequisite: MTH 101, Co-Requisite: LAB 105

Phy 211 College Physics
(4 Credits)
Introductory course for students without a calculus background, and is recommended for pre-medical or pre-professional students. Topics Include Newtonian mechanics and gravitation, work & energy, solids & fluids, vibrations, waves, sounds, and heat & thermodynamics.
Prerequisite: Math 103

Phy 251 University Physics I
(4 Credits)
This is the first course in a two semester calculus-level sequence, covering fundamental concepts of physics. Topics include Newtonian mechanics and gravitation, work and energy, the mechanics of solids and fluids, heat and thermodynamics.
Prerequisite: MTH 165
**PHY 252 University Physics II**  
*(4 Credits)*  
This course serves as the continuation of the calculus-based physics course sequence. Topics include harmonic and wave motion, Maxwell's equations in both differential and integral form, along with electrostatic and magnetic vector potential, and the properties of dielectrics and magnetic materials.  
*Prerequisite: MTH 166*

**POL 115 American Government**  
*(3 Credits)*  
This course examines mainstream American politics and government as they relate to Native American tribal governments. The class is designed to evaluate the political system, and the international perspective of the ways globalization is changing politics.

**PSY 111 Introduction to Psychology**  
*(3 Credits)*  
A survey of the scientific study of behavior and mental processes. This course is a comprehensive study of the basic concepts of psychology, history of psychological thought, and an overview of psychological theories with emphasis on practical information for healthy living skills.

**PSY 230 Educational Psychology**  
*(3 Credits)*  
This course introduces students to the fundamental psychological principles underlying education and examines how these principles can be applied in classroom settings. Relevant theories concerning the development of cognition and language; social, emotional, and personal development; learning styles and other learner differences, particularly Native American; motivation of learners; and learning environments are presented. This course is a pre-requisite to all education methodology classes.  
*Prerequisites: PSY 111, PSY 252*

**PSY 251 Developmental Psychology**  
*(3 Credits)*  
This course will serve as an introduction to the classical mechanics principles of physics. The focus will be on calculus-based vectors, kinematics and dynamics of linear motion, forces, and principles of conservation of energy and of momentum, kinematics and dynamics of rotational motion, Newton's laws of gravitation, and the mechanics of solids and fluids and thermodynamics.  
*Prerequisite: MTH 102*

**PSY 252 Psychology of Child Development**  
*(3 Credits)*  
A study of human development from conception through childhood. Includes language and cognition, physical and perceptual, and social/ emotional aspects, emphasizing typical and atypical childhood development. Consideration of cultural, linguistically and ability diverse development will be emphasized in the course content.  
*Prerequisite: PSY 111*

**PSY 270 Abnormal Psychology**  
*(3 Credits)*  
This course is a survey of the classification, symptoms, and etiology of psychological disorders.
SCIENCE

SCI 201 EARTH SCIENCE  
(3 CREDITS)

This course is an introduction to the Earth Sciences; geology, meteorology, oceanography, and astronomy.

Co-Requisite: LAB 201

SOC 110 INTRODUCTION TO SOCIOLOGY  
(3 CREDITS)

The course encompasses an introductory analysis of society, the interrelationship of its component groups, and the process whereby society persists and changes.

SOC 275 NATIVE AMERICAN STUDIES  
(3 CREDITS)

This course provides a general introduction to the field of Native American Studies. The course is broken down into three general areas: 1) “History, Law, and Government,” 2) “Cultural and Creative Expressions,” and 3) “Policy Studies,” which focuses on issues involving Indian health, education, sociology, and language. The goal of this course is for students to be able to understand, analyze, and articulate in a scholarly way the fundamental issues involved with each of these areas.

SOI 210 INTRODUCTION TO SOIL SCIENCE  
(3 CREDITS)

This course is an introduction to the fundamentals of soil science, including the properties of soil, soil origins and development, soil nutrient cycles, erosion and sediment control, and soil taxonomy. Hands-on learning is emphasized through a combination of lecture, field, and lab activity.

TECHNOLOGY

TES 199 INTRODUCTION TO SCIENTIFIC LITERATURE  
(1 CREDIT)

This course covers the foundational format of communicating scientific information. The focus is on practical experience writing and evaluating published primary literature.

TES 222 ENVIRONMENTAL LAW AND CONSERVATION PROGRAMS  
(3 CREDITS)

This course examines the primary pieces of legislation that affect the environment and wildlife populations. A focus is on conservation programs and incentive programs for landowners. A survey of landownership and public lands is included.

TES 256 INTRODUCTION TO RANGE MANAGEMENT  
(3 CREDITS)

This course covers the fundamentals of rangeland history, function, ecology, physiology, grazing management, and improvements. Emphasis is on range production, range health, soils management, wildlife considerations and rangeland productivity.

TES 260 ENVIRONMENTAL SAMPLING  
(3 CREDITS)

This course is a survey of sampling techniques and procedures for obtaining, transporting, and storing environmental samples from air, water, and soil sources.

Prerequisite: SOI 210
TES 291 Environmental Seminar III  
(1 Credit)  
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars that will form the basis of class analysis and discussion.

TES 293 Environmental Research II  
(2 Credits)  
The third course of the research series focuses on the analysis, visualization, and presentation of research results in written and oral form.

TES 353 Wildlife Identification and Sampling  
(3 Credits)  
This field-based course is a survey of techniques for sampling populations, including advanced identification of wildlife species and sampling methods for Northern Plains species.
Prerequisite: BIO 151

TES 397 Environmental Science Internship  
(3 Credits)  
The graded internship course is designed to provide students with the opportunity to apply classroom knowledge in a practical setting with the support of a professional sponsor at an external company or agency. The internship topic must be closely related to the student’s program of study. Students will complete 135 hours on location.

TES 410 Environmental Regulations  
(3 Credits)  
This course provides experience applying federal laws and regulations to environmental issues and compliance with a focus on NEPA and Environmental Assessments.

TES 412 Invasive Species Management  
(3 Credits)  
This course explores the impacts of invasive species upon native and natural ecosystems. Emphasis is placed upon invasion causes, challenges, approaches to preventing new invasions and mitigating invaded areas. Biosecurity and risk assessment in a global setting and case studies of local invasive species is the focus.
Prerequisite: BIO 150, BIO 151, BIO 315

TES 423 Wetland Systems and Streams Ecology  
(3 Credits)  
The course provides an introduction to the structure and function of wetlands and streams. The interactions between aquatic systems and associated terrestrial ecosystems are examined with a focus on water quality and movement.
Prerequisite: BIO 151, BIO 230

TES 491 Senior Seminar III  
(1 Credit)  
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars which will form the basis of class analysis and discussion.

TES 493 Senior Research III  
(2 Credits)  
The third course in the research series focuses on the analysis, visualization, and presentation of research results in written and oral form.
WLD 135 Basic Metallurgy  
(2 Credits)  
This course is a study of the common metals and alloys and welding arc. The history will emphasize the importance of welding theory in today’s workforce.

WLD 150 Introduction to Welding  
(4 Credits)  
An introduction to the fundamentals of equipment used in oxyacetylene and arc welding, including welding and cutting safety, basic oxyacetylene welding and cutting, basic arc welding processes and basic metallurgy.

WLD 151 Welding Theory I  
(3 Credits)  
This theory course introduces the processes of Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and Oxy-Fuel Cutting (OFC). Safety for the student such as Personal Protection Equipment (PPE) and safe welding practices in the welding shop are emphasized. Welding and cutting equipment, selection of welding supplies and metals that are used in industry are introduced.

WLD 152 Welding Theory II  
(3 Credits)  
This theory course covers Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), equipment and supplies. Shielded Metal Arc Welding (SMAW), Flux Core Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW), Oxy-Fuel Cutting (OFC), Carbon Arc Cutting-Air (CAC-A) are also covered in more detail.

WLD 153 Welding Lab I  
(5 Credits)  
This course gives beginning instruction in laboratory safety, use of Personal Protection Equipment (PPE), with a strong emphasis on the safe handling of welding and cutting equipment. Students learn basic hands-on instruction in Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Oxy-Fuel Cutting (OFC) on various thicknesses of metal, and the techniques used. Welding supplies and equipment maintenance are also covered. Basic elements in Shielded Metal Arc Welding (SMAW) and Gas Metal Arc Welding (GMAW) are practiced and tested.

WLD 154 Welding Lab II  
(5 Credits)  
Instruction will consist of perfecting skilled welding on plate steel in all positions using Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), Flux-Core Arc Welding (FCAW) and Carbon Arc Cutting-Air (CAC-A). Students will practice and weld plates in accordance to The American Welding Society (AWS) certification guidelines.

WLD 155 Blueprint Symbols for Welding  
(3 Credits)  
Welding symbols are considered an integral part of blueprint reading for the welder. Topics include: welding symbols and abbreviations; basic joints for weldment fabrications; industrially used welds; surfacing back or backing, and melt-thru welds; and structural shapes and joint design. Actual prints from industry are used during this course.

WLD 165 Blueprint Reading for Welders  
(3 Credits)  
This course will cover visualization of the objects’ shape, reading the print for finding size and location dimensions, symbols, notes and related information shown on the print.
TES 291 Environmental Seminar III  
(1 Credit)
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars that will form the basis of class analysis and discussion.

TES 293 Environmental Research II  
(2 Credits)
The third course of the research series focuses on the analysis, visualization, and presentation of research results in written and oral form.

TES 353 Wildlife Identification and Sampling  
(3 Credits)
This field-based course is a survey of techniques for sampling populations, including advanced identification of wildlife species and sampling methods for Northern Plains species.

Prerequisite: BIO 151

TES 397 Environmental Science Internship  
(3 Credits)
The graded internship course is designed to provide students with the opportunity to apply classroom knowledge in a practical setting with the support of a professional sponsor at an external company or agency. The internship topic must be closely related to the student’s program of study. Students will complete 135 hours on location.

TES 410 Environmental Regulations  
(3 Credits)
This course provides experience applying federal laws and regulations to environmental issues and compliance with a focus on NEPA and Environmental Assessments.

TES 412 Invasive Species Management  
(3 Credits)
This course explores the impacts of invasive species upon native and natural ecosystems. Emphasis is placed upon invasion causes, challenges, approaches to preventing new invasions and mitigating invaded areas. Biosecurity and risk assessment in a global setting and case studies of local invasive species is the focus.

Prerequisite: BIO 150, BIO 151, BIO 315

TES 423 Wetland Systems and Streams Ecology  
(3 Credits)
The course provides an introduction to the structure and function of wetlands and streams. The interactions between aquatic systems and associated terrestrial ecosystems are examined with a focus on water quality and movement.

Prerequisite: BIO 151, BIO 230

TES 491 Senior Seminar III  
(1 Credit)
The course examines current research and policy concerning the management of environmental resources. Guest lecturers will provide seminars which will form the basis of class analysis and discussion.

TES 493 Senior Research III  
(2 Credits)
The third course in the research series focuses on the analysis, visualization, and presentation of research results in written and oral form.
WLD 135 Basic Metallurgy
(2 Credits)
This course is a study of the common metals and alloys and welding arc. The history will emphasize the importance of welding theory in today’s workforce.

WLD 150 Introduction to Welding
(4 Credits)
An introduction to the fundamentals of equipment used in oxyacetylene and arc welding, including welding and cutting safety, basic oxyacetylene welding and cutting, basic arc welding processes and basic metallurgy.

WLD 151 Welding Theory I
(3 Credits)
This theory course introduces the processes of Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and Oxy-Fuel Cutting (OFC). Safety for the student such as Personal Protection Equipment (PPE) and safe welding practices in the welding shop are emphasized. Welding and cutting equipment, selection of welding supplies and metals that are used in industry are introduced.

WLD 152 Welding Theory II
(3 Credits)
This theory course covers Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), equipment and supplies. Shielded Metal Arc Welding (SMAW), Flux Core Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW), Oxy-Fuel Cutting (OFC), Carbon Arc Cutting-Air (CAC-A) are also covered in more detail.

WLD 153 Welding Lab I
(5 Credits)
This course gives beginning instruction in laboratory safety, use of Personal Protection Equipment (PPE), with a strong emphasis on the safe handling of welding and cutting equipment. Students learn basic hands-on instruction in Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Oxy-Fuel Cutting (OFC) on various thicknesses of metal, and the techniques used. Welding supplies and equipment maintenance are also covered. Basic elements in Shielded Metal Arc Welding (SMAW) and Gas Metal Arc Welding (GMAW) are practiced and tested.

WLD 154 Welding Lab II
(5 Credits)
Instruction will consist of perfecting skilled welding on plate steel in all positions using Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), Flux-Core Arc Welding (FCAW) and Carbon Arc Cutting-Air (CAC-A). Students will practice and weld plates in accordance to The American Welding Society (AWS) certification guidelines.

WLD 155 Blueprint Symbols for Welding
(3 Credits)
Welding symbols are considered an integral part of blueprint reading for the welder. Topics include: welding symbols and abbreviations; basic joints for weldment fabrications; industrially used welds; surfacing back or backing; and melt-thru welds; and structural shapes and joint design. Actual prints from industry are used during this course.

WLD 165 Blueprint Reading for Welders
(3 Credits)
This course will cover visualization of the objects’ shape, reading the print for finding size and location dimensions, symbols, notes and related information shown on the print.
Leadership Begins Here

- Community Wellness Center
- Safety & Security
Community Wellness Center

The Lewis Goodhouse Wellness Center houses UTTC's community wellness services. UTTC has made a major commitment to the health and wellness of our students, staff and visitors within the campus community. United Tribes Technical College promotes a safe environment to experience diverse cultures, sample the mainstream, and focus on building your future in a good way on your path of “life long learning”.

Athletic Department

UTTC is home to the Thunderbird Athletic Program. The mission of the UTTC Athletic Department is to provide students who meet National Junior College Athletic Association (NJCAA) guidelines the opportunity to compete in intercollegiate athletics with other Region XIII teams. Since 1985, the Thunderbirds have competed at the highest level of the NJCAA. The Thunderbirds compete at the NJCAA Division II level in Men’s and Women’s Basketball. United Tribes Technical College is a member of Region XIII and Mon-Dak Athletic Conference.

Student-athletes come from across the United States and around the world to compete for the Thunderbirds. The pride of the Thunderbirds is in its commitment to compete against the best junior college and university teams in the region and country. UTTC’s goal is to recruit the very best Native American student-athletes from around the country and to showcase their athletic skills in the spotlight of competition. The men’s basketball team featured a storied run of three national tournament appearances in the late 1990’s and early 2000’s, claiming 8th Place in ’97-’98, 6th place in ’98-’99, and 8th Place in ’01-’02. The women’s basketball team made its first National Tournament appearance during the 2015-2016 season.

UTTC is committed to growing the Thunderbird Athletic Program. Thunderbird student-athletes must be committed in the classroom as well as on the court. The future of Thunderbird Athletics is bright. Explore the possibilities of becoming the next part of excellence by joining Thunderbird Athletics. Athletic department offices are located in the upper level at the James Henry Community Building, Building 69. Further information can be obtained by contacting the Athletic Director at 701-221-1362.
Child Development Centers

The two centers on campus are licensed to care for 132 children ages birth to six years. All children must have up-to-date immunizations. The centers meet the licensing standards of North Dakota and are reviewed annually. The center staff believe that each child who enters must have every opportunity to grow and develop physically, cognitively, socially and emotionally in a culturally rich environment. Daily activities are planned to provide experiences in art, music, muscle development, cognitive development and socialization appropriate to individual age and development.

Personal Counseling

The Personal Counseling (PC) staff is committed to providing support services to enhance life-long learning, personal growth and academic success to UTTC students. The PC offers a variety of services to include: academic guidance and support, assistance in the transition to college life (individual, family, group and vocational), referral services, intervention services and campus educational programs. A holistic approach is utilized to promote the overall well-being of all UTTC students. The PC office hours are Monday through Friday, 8:00 am to 5:00 pm to include noon hour coverage. After hours emergency on call services are available by contacting the UTTC security office.

Chemical Health Center

The Chemical Health Center (CHC) provides alcohol and drug education/prevention services, aftercare counseling, treatment referrals and other referrals as requested. Support group meetings such as Alcohol Anonymous, are held. The CHC holds alcohol/drug free activities, a video library, a North Dakota certified 16 hour DUI program, and provides on-going services for students and staff. The CHC office hours are Monday through Friday, 8:00 am to 5:00 pm to include noon hour coverage. After hours emergency on call services are available by contacting the UTTC Security Office.

Domestic Violence Advocate

The primary focus of the Domestic Violence Advocate is to provide culturally appropriate services and protection to the victim(s) of: domestic violence; dating violence; sexual assault and stalking. The advocate partners with the Bismarck/Mandan community services in support of the UTTC student and is an active member of the community response team. The Domestic Violence Advocate promotes a safe and secure environment for all UTTC students, their families and staff. Office hours are Monday through Friday, 8:00 am to 5:00 pm with on call coverage. After hours emergency on call services are available by contacting the UTTC security office.

Health Promotion Center

The Health Promotion Center's (HPC) vision: a safe and health campus for all community members, is guided by the goals of providing a safe, comfortable environment conducive to the educational, social, and overall developmental growth of each student and the promotion of the concepts of wellness, academic excellence, civility and community to those utilizing the facilities and all program participants within the UTTC campus community.

The focus in student life encompasses a holistic approach through the offering of a multitude of student wellness activities such as traditional double ball, hand games, archery, horse shoes, intramural football, basketball, lacrosse, and coed volleyball. Also provided are family oriented activities such as movie night, fishing, beading class, swimming, and others. The HPC takes great pride in providing quality services to UTTC students; committed to make positive connections throughout the college campus among students, faculty, and staff. The HPC hours vary from 8:00 am-9:00 pm, Monday - Friday. Saturday and Sunday hours are 9 am to 6 pm during the academic year.

Student Health Center

The Student Health Center (SHC) provides comprehensive medical care to Native American students and/or their dependents. Students are referred to medical facilities within the Bismarck/Mandan communities or to the nearest Indian Health Services which is located at Fort Yates Public Health Service, Fort Yates, ND. The SHC office hours are Monday through Friday, 8:00 am to 5:00 pm to include noon hour coverage. After hours; emergency on call services are available by contacting the UTTC security office. For more information about Student Health Center services, please contact the center at (701) 221-1331.
Cafeteria

The cafeteria serves three (3) meals a day Monday through Friday and two brunch style meals on weekends and holidays during the academic school year. Meals are provided for students in the dormitory as part of their housing contract. The general public, single parents, married students and staff are also welcome to eat in the cafeteria but will pay for their meals through cash, debit card, checks or with meal tickets that can purchase at the Finance Office in the Administration Building. Meals and preparation are done by the staff of the cafeteria to provide a wide array of healthy food options for the patrons to enjoy. The cafeteria is managed by A’viands, a third party management company located in Roseville, MN.

Housing

The UTTC Housing Department encourages students to develop independence and responsibility by creating a “home away from home” environment for enrolled UTTC students residing in residential hall dormitories or family housing.

Currently, the college has three residential halls: Sakakawea, Sitting Bull, and Itan’can Hall. Residential hall dormitories are staffed 24/7 during the academic year with personnel who offer opportunities that nurture positive social interactions, guide educational development, and health living guided by housing procedures and policies.

UTTC offers convenient and comfortable housing to enrolled students with families. The safe campus environment provides students and families a context that supports wellness, academic excellence, self-sufficiency and a sense of community.

Student safety and security is enhanced by campus Security Officers and Housing personnel.

After hours, emergency on-call services are available by contacting the UTTC Security Office at (701) 221-1700 or 911.

Mail Room

UTTC provides mail services for students and staff. The mail room is open from 8:00 a.m. to 5:00 p.m., Monday through Friday and Saturday 8:00 a.m. to 12:00 noon. Mail is received and processed throughout the day; mail is brought to the Bismarck Post Office at 4:30 p.m. daily. Postal stamps and envelopes can be purchased at the mail room. Federal Express and delivery services are available. UPS delivery services are designated through the campus Property and Supply Department.
Safety and Security

The Safety & Security Department provides 24 hour security and patrol services. Security Officers enforce traffic and parking regulations in compliance with the Safety & Security Policy. Security Officers promote crime prevention, and secures the college’s buildings and family housing areas. Burleigh County Sheriff’s Department also provides vehicle patrols on campus and responds to emergency calls for assistance.

The Safety & Security offices are open Monday to Friday, from 8am to 5pm and can be reached at (701) 221-1700. To contact a Security Officer after hours, call the same number (701) 221-1700 to reach the Security Officer on Duty. Security services are provided 24 hours every day of the week.

Parking on Campus

Students are required to register their vehicles and receive a free parking permit at the Safety & Security Department located in building 61, on Ft. Berthold Avenue on campus. Students who reside on campus in the dorms are eligible for one parking permit, students who reside on campus in Family Housing are eligible for two parking permits, and students who live on campus are eligible up to three parking permits. Parking permits are required every year during the fall semester.

Emergency Notification (Thunder Alerts)

Sign-Up for Thunder Alerts by going to the UTTC Webpage at www.uttc.edu and clicking the THUNDER ALERTS icon.

Thunder Alerts are emergency notifications that are sent out in the event of an emergency or crime alert. The emergency notification service (THUNDER ALERTS) are free and easy to sign up.

Reporting Crimes and Other Emergencies

It is critical, that you report all crimes and other emergencies to 911.

Students, faculty, staff, and guests are encouraged to report all emergencies and crimes to 911 and the Safety & Security Department at (701) 221-1700 in a timely manner.
Reporting to other Campus Security Authorities

While UTTCC prefers that you report to 911 or the Safety & Security Department at (701) 221-1700, we also recognize that some may prefer to report to other individuals or college offices. The Clery Act recognizes certain college officials and offices as Campus Security Authorities (CSA). These individuals are “officials” of an institution who have significant responsibility for student and campus activities. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution. CSAs are required to report all crimes to the UTTCC Safety & Security Director as soon as reasonably possible. While UTTCC has identified a number of CSAs, we officially designate the following departments as places where students can report crimes:

- UTTC Safety & Security Department, Building 61, Ft. Berthold Avenue, on campus (701) 221-1700
- Wellness Department, Wellness Center, (701) 221-3103
- Campus Services (Vice President of Campus Services), Building 61, (701) 221-1707
- Housing Department, on campus, (701) 221-1513

The Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act is the landmark federal law, originally known as the Campus Security Act that requires colleges and universities across the United States to disclose information about crime on and around their campuses. Because the law is tied to participation in federal student financial aid programs it applies to most institutions of higher education both public and private.

It is enforced by the U.S. Department of Education. The Clery Act is named in memory of 19-year-old Lehigh University freshman Jeanne Ann Clery who was raped and murdered while asleep in her residence hall room on April 5, 1986.

Jeanne’s parents, Connie and Howard, discovered that students hadn’t been told about 38 violent crimes on the Lehigh campus in the three years before her murder. They joined with other campus crime victims and persuaded Congress to enact this law, which was originally known as the “Crime Awareness and Campus Security Act of 1990.”

The law was amended in 1992 to add a requirement that schools afford the victims of campus sexual assault certain basic rights, and was amended again in 1998 to expand the reporting requirements. The 1998 amendments also formally named the law in memory of Jeanne Clery. The law was most recently amended in 2000 to require schools beginning in 2003 to notify the campus community about where public “Megan’s Law” information about registered sex offenders on campus could be obtained.

The UTTCC Annual Security and Fire Report can be found on the UTTCC Webpage at www.uttc.edu and is available at the UTTCC Safety & Security Department, located in Building 61, on Ft. Berthold Avenue.
Safety and Security

The Safety & Security Department provides 24 hour security and patrol services. Security Officers enforce traffic and parking regulations in compliance with the Safety & Security Policy. Security Officers promote crime prevention, and secures the college’s buildings and family housing areas. Burleigh County Sheriff’s Department also provides vehicle patrols on campus and responds to emergency calls for assistance.

The Safety & Security offices are open Monday to Friday, from 8am to 5pm and can be reached at (701) 221-1700. To contact a Security Officer after hours, call the same number (701) 221-1700 to reach the Security Officer on Duty. Security services are provided 24 hours every day of the week.

Parking on Campus

Students are required to register their vehicles and receive a free parking permit at the Safety & Security Department located in building 61, on Ft. Berthold Avenue on campus. Students who reside on campus in the dorms are eligible for one parking permit, students who reside on campus in Family Housing are eligible for two parking permits, and students who live on campus are eligible up to three parking permits.
